1. LOGIN SCREEN

User can login to the system by using [URL:https://www.smarttrack.co//login.php]. Following screen will be displayed to the user to enter login credentials.

- Username
- Password

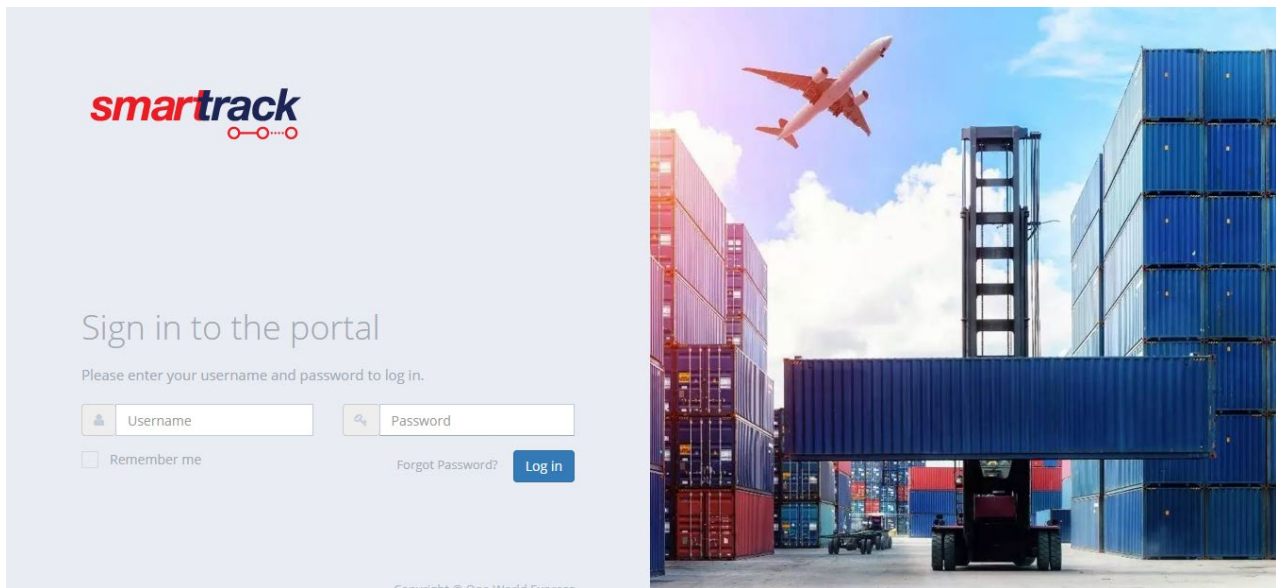

Figure 1-1 user panel Access Information

2. DASHBOARD

When user login to the system with valid credentials, system redirects user to Dashboard as shown below. There are 4 tiles displayed at top of the screen that represents

- Total Shipments
- Label Created
- IN transit
- Delivered

Following these tiles are two graphs displayed that are:

- Shipment Statistics Graph
- Top Countries Graph

User can also expand/collapse both graphs to full screen by clicking on the icon displayed at top right of the graph.

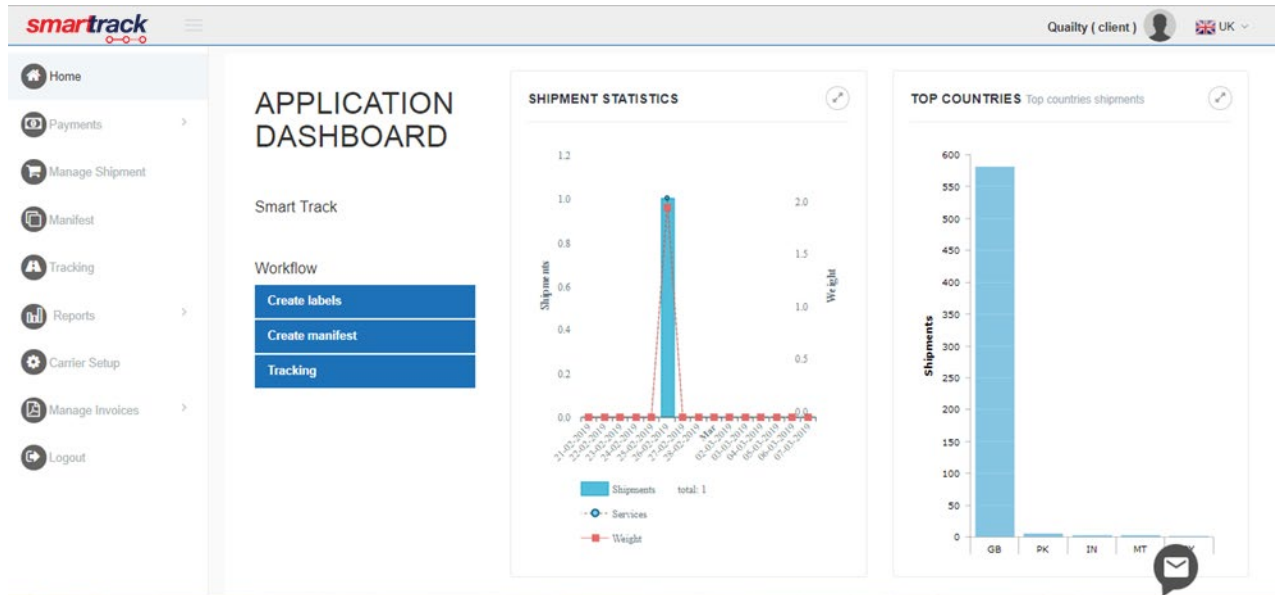

Figure 2-1 Dashboard

3. FIND WAYBILL

User can navigate to Find Waybill module by clicking on Find Waybill tab displayed in navigation panel. There are two sections of the screen:

- Filters and Search
- List of Shipments

User can search on different fields as shown in the screenshot below.

Page 4 of 128

August 9, 2018

4

User can manipulate with following actions on the list of shipments displayed

- Operation Manifest
- Billing Hold
- Manual Bulk Price All
- Assign price with CSV upload
- Bulk Vol Weight
- Manual POD update
- Charge Shipment Status

User can also view tracking of any shipment by clicking on tracking number of shipment displayed.

The screenshot displays the SmartTrack Parcel Tracking interface. The top navigation bar includes the SmartTrack logo, a user profile icon, and a language selector set to UK. The left sidebar contains a menu with options: Toolbox, Find Waybill, Remote Areas, User, Accounts, Manage Quotation, Payments, Carriers, Agents, Reports, Manage Invoices, and Logout. The main content area is titled 'PARCEL TRACKING' and features a 'Data Received' status box. Below this, the 'SHIPMENT INFORMATION' section displays the tracking number 'JD0002210161110044', the origin country 'United Kingdom', and the destination country 'United Kingdom'. A 'TRACK' button is visible next to the tracking number. The 'TRACKING EVENTS' section shows a timeline with three stages: 'PICKED UP', 'ON THE WAY', and 'DELIVERED'. The 'ON THE WAY' stage is currently active. A table below the timeline lists tracking events, including a record for Tuesday, December 04, 2018, at 01:38 PM, with the description 'Birmingham3 - GBR' and the status 'Data Received'.

TRACKING EVENTS		
Date	Description	Status
Tuesday, December 04, 2018		
01:38 PM	Birmingham3 - GBR	Data Received

Figure 3-3 Tracking of any shipment

User can view details of any shipment by clicking on hawb number or by double clicking on the record.

The screenshot shows the 'SHIPMENT DETAIL' screen in the SmartTrack application. The interface includes a sidebar with navigation options like Toolbox, Find Waybill, Remote Areas, User, Accounts, Manage Quotation, Payments, Carriers, Agents, Reports, Manage Invoices, and Logout. The main content area has tabs for 'Shipment Detail', 'Agent Detail', and 'Parcel Detail'. The 'SHIPMENT DETAIL' tab is active, displaying sections for 'Details', 'Booking Details', and 'Shipment Details'.

4.2. Invoice Bank Details

User can add his bank details by clicking on Invoice Bank Details button displayed next to Add New Account. Following screen is displayed to add bank details. A list of all Invoices that user have added are also listed below.

The screenshot shows the 'INVOICES BANK DETAILS' page in the SmartTrack application. The page is divided into two main sections: a form for adding new bank details and a table for existing entries.

Form Section:

- Account Title:** Input field with a red asterisk.
- Account Sortcode:** Input field with a red asterisk.
- Account Number:** Input field with a red asterisk.
- IBAN:** Input field with a red asterisk.
- Bank Name:** Input field with a red asterisk.
- Bank Branch:** Input field with a red asterisk.
- Bank Address:** Input field with a red asterisk.
- Status:** Dropdown menu with 'Active' selected.
- Buttons:** 'Save' and 'Cancel' buttons.

Table Section:

The table is titled 'INVOICES BANK DETAILS' and shows a list of existing bank details. The table has the following columns: Action, Account Title, Account Sortcode, Account Number, IBAN, Bank Name, Bank Branch, Bank Address, Status, Added By, and Dated.

Action	Account Title	Account Sortcode	Account Number	IBAN	Bank Name	Bank Branch	Bank Address	Status	Added By	Dated
								Select Status		
	123	0	0	asd	123	as12	123	No	developer	19 Apr 2018
	23	23	0	qwq	123	asdf	123	Yes	developer	19 Apr 2018
	Muhammad Bilal Hassan	10012	2147483647	2587	MCB	Moon Market	Moon Market Allama Iqbal Town	Yes	developer	05 Apr 2018
	AccountTitle	0	0	IBAN	BankName	BankBranch	BankAddress	Yes	developer	09 Mar 2018

The table also includes pagination controls: Page 1 of 1, View 10 records, and a message 'No records found to show (filtered from NaN total entries)'.

Figure 5-1 Users List

User can also sort and search users list depending upon the columns of the list as displayed below.

The screenshot shows the 'Users List' page in the SmartTrack application. The interface includes a sidebar with navigation options like Home, Find Waybill, Remote Areas, User, Accounts, Operation, Manage Warehouse, Permissions & Actions, Carriers, Department, Agents, Manage Shipment, Manifest, Tracking, Reports, Integration, and Carrier Setup. The main content area displays a table of users with columns for Actions, Account, User Name, User Type, First Name, Last Name, Active, and Country. Above the table, there are search and filter controls for each column, including a search icon, a dropdown for 'Please Select Account', a dropdown for 'Please Select', and dropdowns for 'Select Active' and 'Select Country'. The table lists 134 records, with the first 10 visible. Each row has a 'Tools' button next to the 'Account' column.

6.1.2. Single Shipment Scan

User can scan single shipment by adding its tracking number and mawb number. User can also add/update its dimensions and weight as well. User can also use same dims for all shipments if the dims are same.

The screenshot displays the 'Single Shipment Scan' interface in the SmartTrack system. The sidebar on the left contains navigation links for Home, Operation, Manage Scanning, Manage Warehouse, Flight And Status, and Reports. The main content area is titled 'SCAN BAG/BOX, SINGLE ITEM' and features a tabbed interface with 'Single Shipment Scan' selected. Below the tabs are checkboxes for 'Total Scanned', 'Total Not Scanned', 'Hide Weight', 'Hide Dimension', and 'Same Dim. And Weight for next scan'. There are buttons for 'Select MAWB' and 'Create MAWB'. The form fields include 'Enter MAWB', 'Tracking Number (AWB)', 'Length', 'Width', 'Height', and 'Weight'.

Figure 6-8 Single Shipment Scan

6.1.3. Multiple Shipment Scan

User can scan multiple shipment by adding their tracking numbers. There are 3 options to scan multiple parcels as follows:

- Scan
- Pre-Sort
- Outbound

6.1.3.1. Scan

User can scan multiple parcels in a bag against mawb number from this screen.

Figure 6-10 Multiple Shipment Scan – Pre-Sort

6.1.3.3. Outbound

User can scan parcels in two types of bags from this screen.

6.1.4. Types of Bags

Two types of bags are:

- Pre-Sorted
- Mix

6.1.4.1. Pre-sorted Bags

In Pre-sorted bag, the parcels; user is going to scan must be of same service.

6.1.4.2. Mix Bags

In mix bag, the parcels; user is going to scan can be of different services.

The screenshot shows the SmartTrack web application interface. The top navigation bar includes the SmartTrack logo, a user profile icon, and the text 'OP Parent (corporate)' with a UK flag. The left sidebar contains a menu with 'Home' and 'Operation' (expanded) with sub-items: 'Manage Scanning', 'Relabel Shipment', 'Create Pallet Group', 'Create Manifest', 'Bulk Return', 'Manage Bags', 'Manage Pallet Numbers', 'Manage Mavib Numbers', 'Manage Warehouse', 'Flight And Status', and 'Reports'. The main content area is titled 'SCAN BAG/BOX, SINGLE ITEM' and has tabs for 'Bag Scan', 'Single Shipment Scan', 'Multiple Shipment Scan' (selected), 'Scan & Dispatch Manifest', and 'End of Day'. Below the tabs, there are radio buttons for 'Scan', 'Pre-Sort', and 'Outbound' (selected). There are four dropdown menus: 'Services' (with a red asterisk), 'Source Country' (with a red asterisk), 'Source Warehouse', 'Destination Country' (with a red asterisk), and 'Destination Warehouse'. Below these is a large text input area labeled 'Enter Parcel Number' with multiple lines for input. A chat icon is visible in the bottom right corner.

Figure 6-11 Multiple Shipment Scan – Outbound

6.1.5. Scan & Dispatch Manifest

User can scan client's manifest from this screen. All the parcels added in the manifest will be scanned automatically in it.

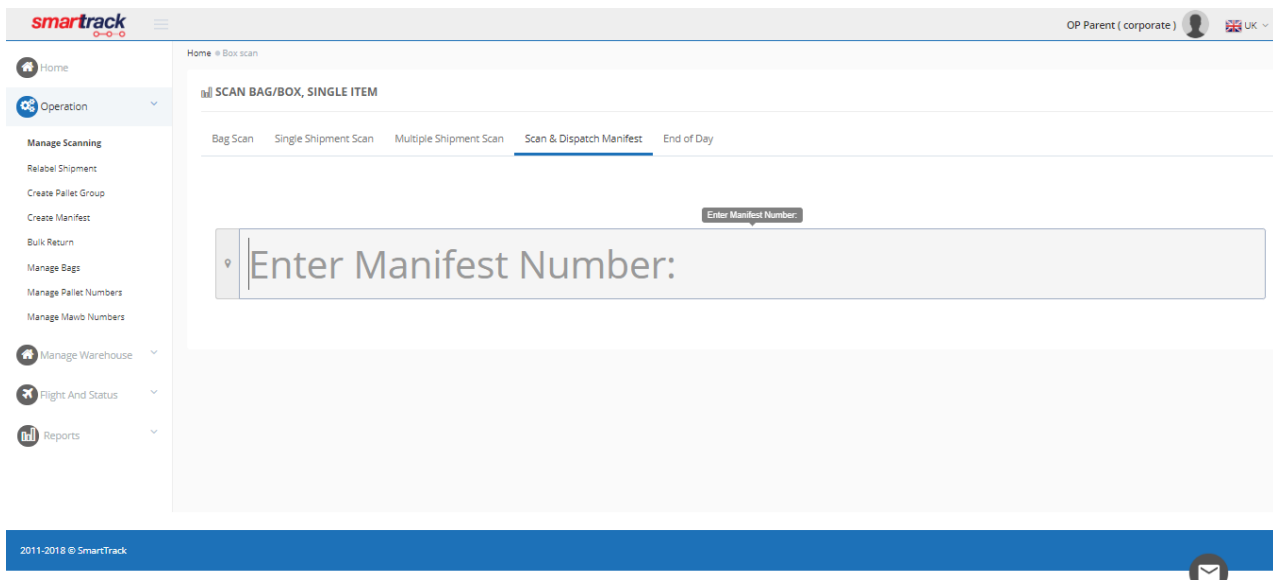

Figure 6-12 Scan & Dispatch Manifest

6.1.6. End of Day

Operation user can manifest all the shipments of services that are scanned earlier by this user. He can also dispatch when all the requirements are fulfilled and shipment is ready to dispatch for receiver address. User can also send an email to inform the responsible persons about the activity.

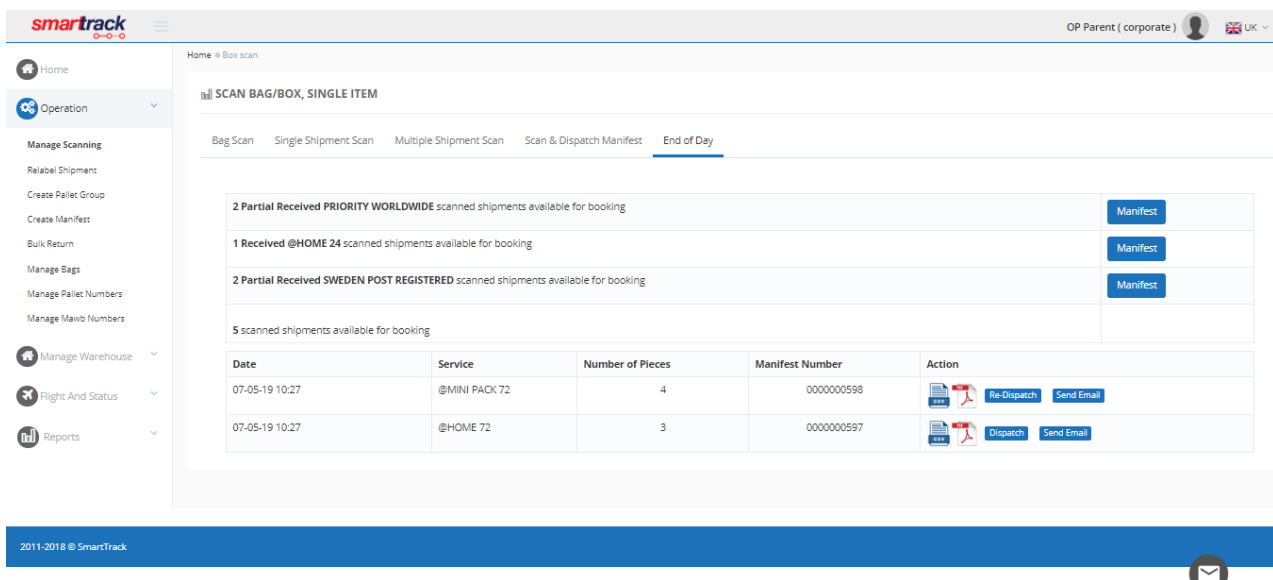

Figure 6-13 End of the Day

User can add Dispatch Agent, Services, Weight, Master no (MAWB), currency and no of parcels while dispatching any service at the end of the day as shown below

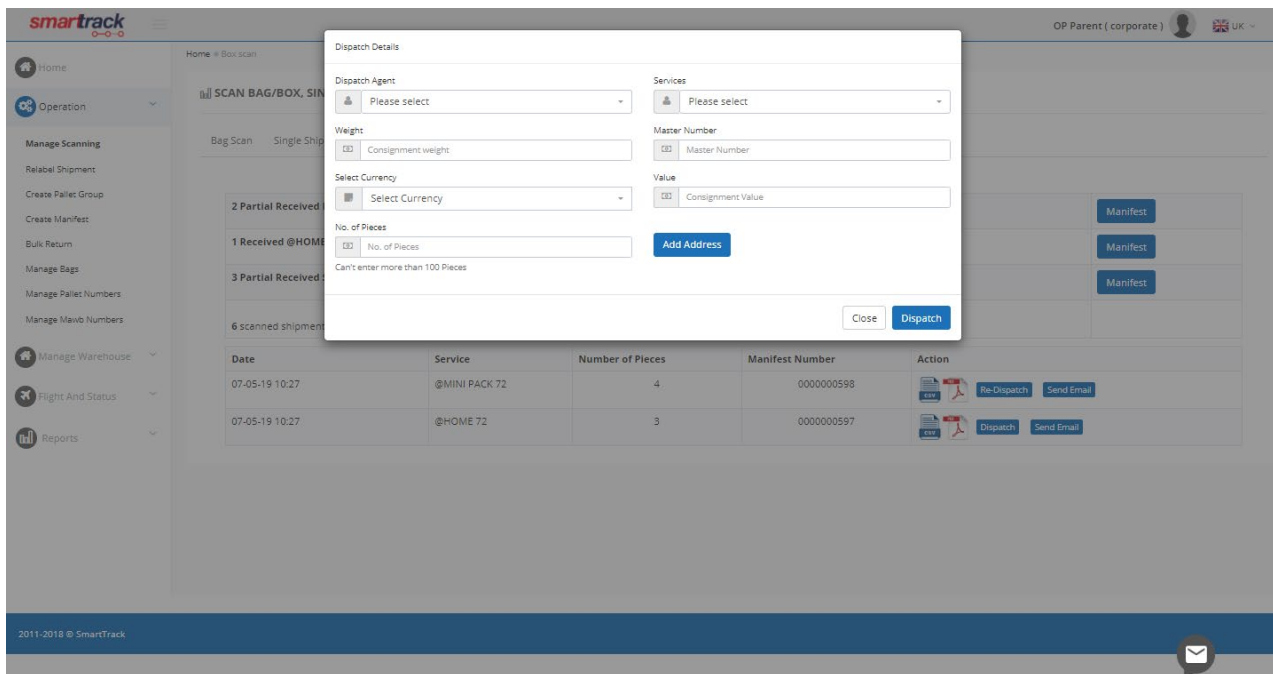

Figure 6-14 Dispatch Popup

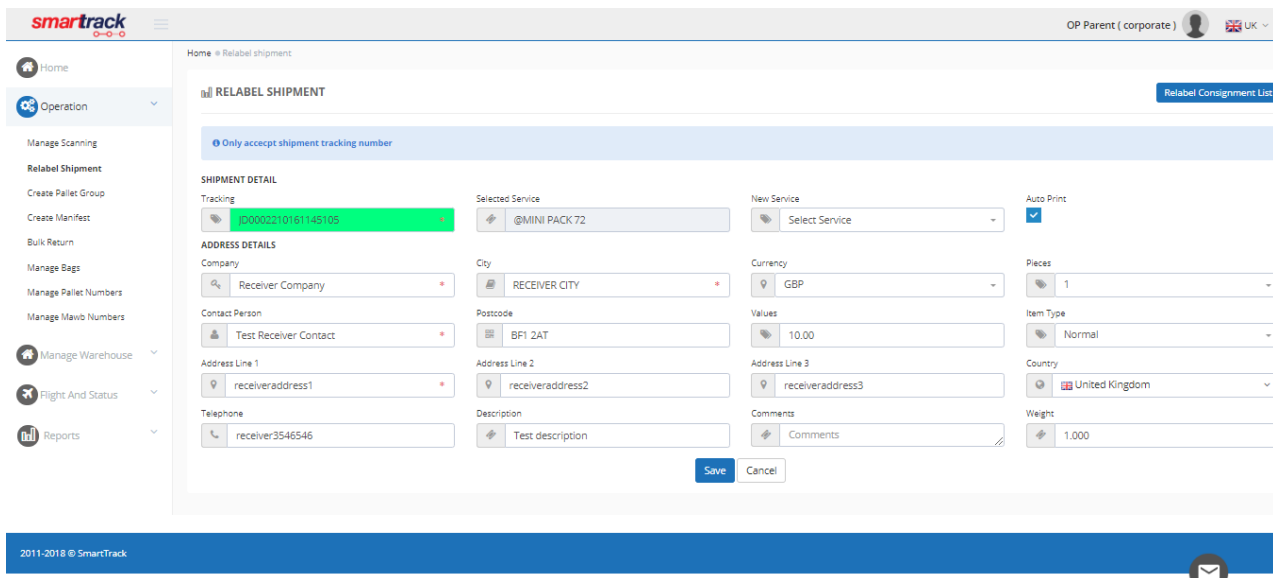

User can also download its csv and pdf file as well

6.2. Relabel Shipment

Operation user can relabel any shipment that client has created to meet delivery requirements. When user enters tracking number, it populates all of its information and service assigned to that service. User can update any field and can also change its service as well but he is restricted to assign any of the service that is already assigned to that account to make sure that the transmission is smooth and doesn't affect the user portal.

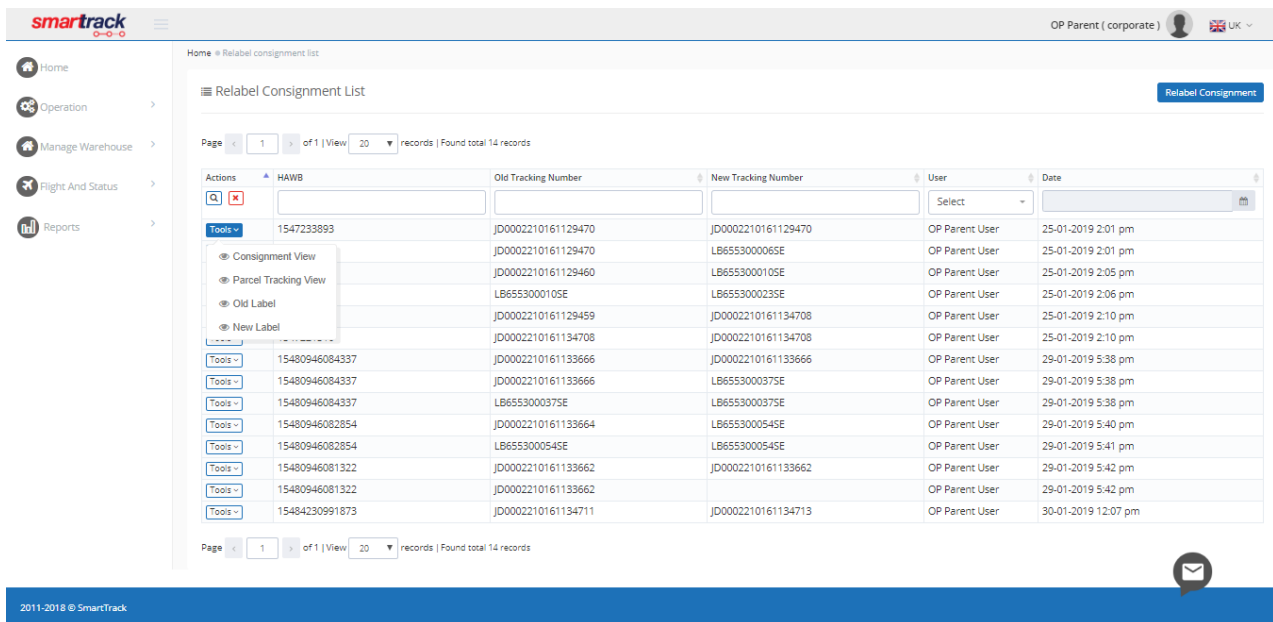

The screenshot shows the 'RELABEL SHIPMENT' form in the SmartTrack system. The form is divided into several sections: SHIPMENT DETAIL, ADDRESS DETAILS, and a bottom section for saving. The SHIPMENT DETAIL section includes fields for Tracking (JD0002210161149105), Selected Service (@MINI PACK 72), New Service (Select Service), and Auto Print (checked). The ADDRESS DETAILS section includes fields for Company (Receiver Company), City (RECEIVER CITY), Currency (GBP), Pieces (1), Contact Person (Test Receiver Contact), Postcode (BF1 2AT), Values (10.00), Item Type (Normal), Address Line 1 (receiveraddress1), Address Line 2 (receiveraddress2), Address Line 3 (receiveraddress3), Country (United Kingdom), Telephone (receiver3546546), Description (Test description), and Comments. A 'Save' button is located at the bottom right of the form.

Figure 6-16 Relabel Shipment

6.2.1. Relabel Consignment List

All the parcels that have been relabeled are listed here with their old and new tracking numbers. The user who has relabeled the consignment is also populated. User can also view its consignment details, tracking details and old new labels as well from “Tools” drop down.

The screenshot shows the 'Relabel Consignment List' table in the SmartTrack system. The table has columns for Actions, HAWB, Old Tracking Number, New Tracking Number, User, and Date. A 'Tools' dropdown menu is visible next to the first row, showing options: Consignment View, Parcel Tracking View, Old Label, and New Label. The table contains 14 records, showing the transition from old to new tracking numbers and the user responsible for the relabeling.

Figure 6-19 Create Manifest

6.5. Bulk Return

It happens that sometimes your destination address is not valid or for any reason you are unable to deliver the parcel at destination point so in that case you have to send the parcel back to sender address. To cover this scenario, we have provided a functionality where user can add a duplicate parcel with same information as of previous one. User can add as many tracking numbers as he want to change those to Returned status that's why it is named as Bulk Return as shown in the screenshot given below. It will let user know for any duplicate tracking number and if the tracking number does exist in the system as well.

Figure 6-20 Bulk Return

User can see two shipments in Manage Shipment list; one with the status of “Returned” and the other with the status of “Label Created”

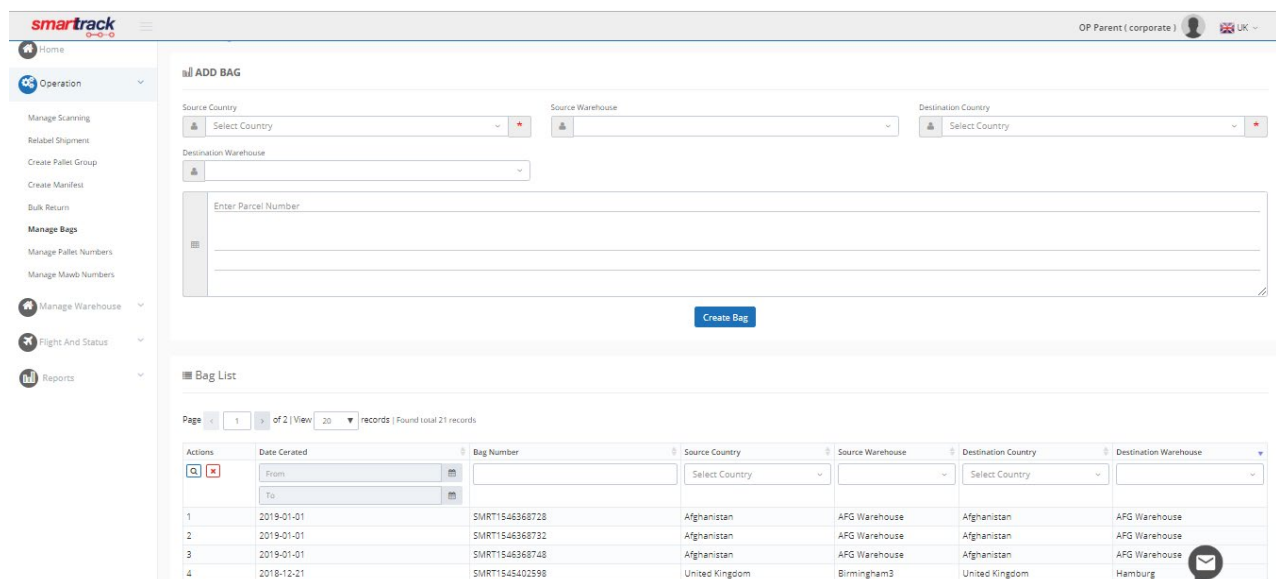

The screenshot shows the SmartTrack 'Manage Shipment' interface. The left sidebar contains navigation links: Home, Payments, Manage Shipment, Manifest, Tracking, Reports, Carrier Setup, Help, Manage Invoices, and Logout. The main area is titled 'SHIPMENT LIST' and includes buttons for '+ Add Shipment', '+ Import', and '+ Manage Address'. Below these are tabs for 'Manifest', 'Label', and 'Merge Existing Label'. The table displays two shipments with columns: Created, HAWB, Contact, Country, Weight, Status, Service, Tracking No, Reason, and Label. The first shipment is dated 08.05.2019 with HAWB 1556297324 and status 'Label Created'. The second shipment is dated 26.04.2019 with HAWB 1556297324 and status 'Returned'. A green box highlights the 'Returned' status in the second row.

Figure 6-21 Bulk Return List

6.6. Manage Bags

User can add bags in the system from this screen. All the bags added are listed below along with its Source Country, Source Warehouse, Destination Country and Destination Warehouse. User can also add parcels into bags while creating it. These bags will be then used in Scanning screen.

The screenshot shows the SmartTrack 'ADD BAG' interface. The left sidebar contains navigation links: Home, Operation, Manage Scanning, Relabel Shipment, Create Pallet Group, Create Manifest, Bulk Return, Manage Bags, Manage Pallet Numbers, Manage Mawb Numbers, Manage Warehouse, Flight And Status, and Reports. The main area is titled 'ADD BAG' and includes a form with fields for Source Country, Source Warehouse, Destination Country, and Destination Warehouse. Below the form is a 'Bag List' table showing existing bags with columns: Actions, Date Created, Bag Number, Source Country, Source Warehouse, Destination Country, and Destination Warehouse. The table lists four bags with their respective details.

Figure 6-22 Manage Bags

6.7. Manage Pallet Numbers

User can add Pallet numbers in the system from this screen. All the pallet numbers added are listed below along with its Pallet Carrier group, Source Country, Source Warehouse, Destination Country and Destination Warehouse. User will then be able to select pallet numbers from this list at the time of scanning.

The screenshot shows the 'ADD PALLET' form in the SmartTrack system. The form includes fields for Pallet Carrier Group, Carrier Hubs, Source Country, Source Warehouse, Destination Country, and Destination Warehouse. A 'Create Pallet' button is located below the form. Below the form is a 'Pallet List' table with columns for Actions, Date Created, Pallet Number, Pallet Carrier Group, Pallet Carrier Hub, Source Country, Source Warehouse, Destination Country, and Destination Warehouse. The table displays 6 records.

7. MANAGE WAREHOUSE

7.1. Add Warehouse

Operation user can add new warehouses of the system that are available in the area. All the required information is added and the warehouse is available for the clients to send parcels to it.

Warehouse Detail

Warehouse Name: **Address Line 1**: **Address Line 1**: **State/Region**:

City/Town: **Post/Zip Code**: **Country**: **Phone**:

Warehouse Code: **Active**: ☒ Yes

Description:

Save **Cancel**

+ Warehouse List

Figure 7-1 Add Warehouse

7.2. List Warehouse

All the warehouses added in the system are listed here. User can view its country, fax number and status from the list. User can also update any information of the warehouse. User can also see its racks from “Tools” drop down.

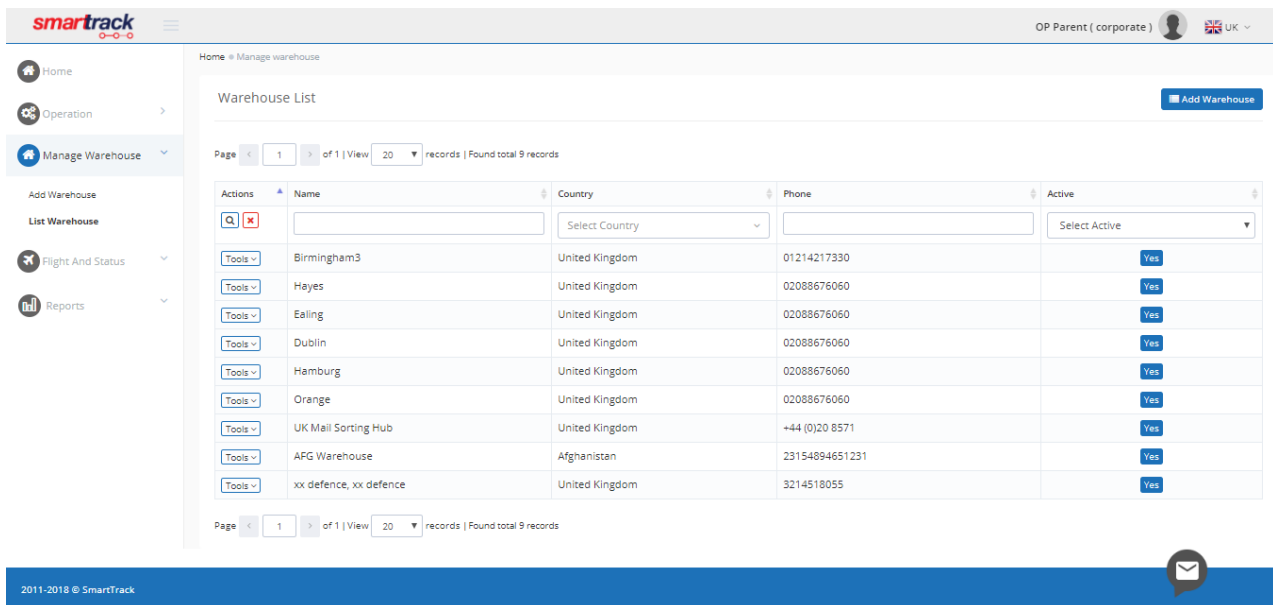

Figure 7-2 Warehouse List

8. Permissions and Actions

User can assign different Permissions & Actions to the Clients. So the modules that a client can access may vary. For Example, one client do not want to add New Accounts and/or Users, he just want to add shipments and want these to be delivered. Smart Track (ST) provides ease to its customers to use modules that they need and will be charged for only those modules.

User is able to add Permissions in the list himself or he can assign all permissions to a group and can assign that group to any of its users. We have two tabs for permissions as follows:

- Permissions List
- Groups List

8.1. Permissions List

A list of all permissions added in the system are displayed here. User is able to add/update permissions from permissions list as well. User can navigate to Add Groups and List Groups by clicking on the buttons displayed at top. System will display a list of all permissions upon user selection of “Permissions List” tab from navigation panel as shown below.

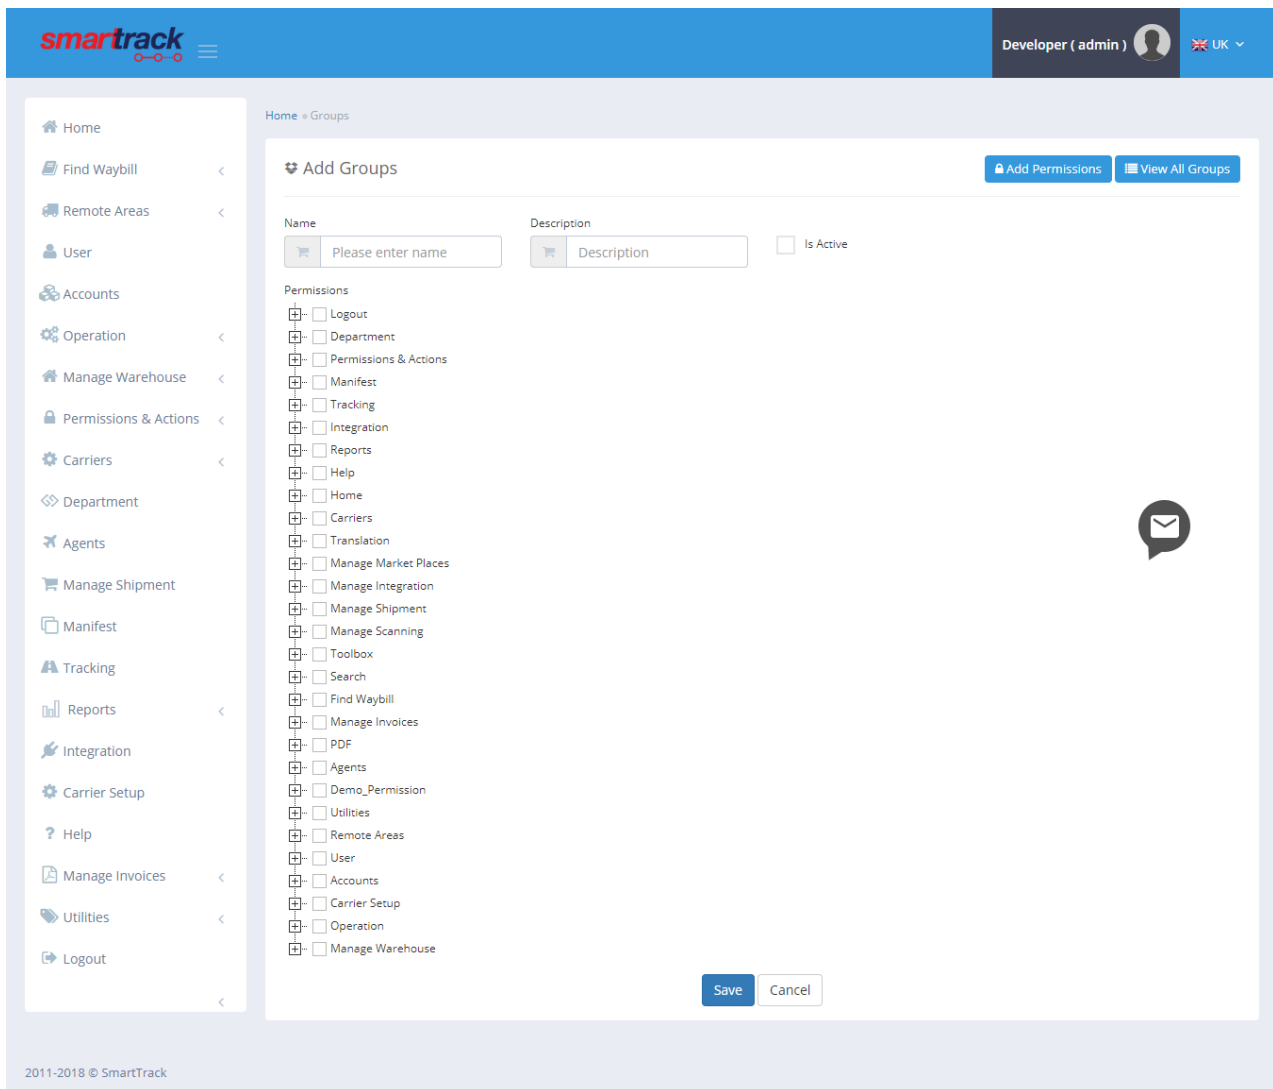

Figure 8-3 Add Group

9. PAYMENTS

In Payments section, user will find following two modules:

- History
- Add Balance

9.1. History

On top of the screen, system will display the available balance of the user. System will list all the history of user transactions. Like in the following screen, user will know the Date of transaction, Method by which he is paying, Credit or Debit amount and Running Balance.

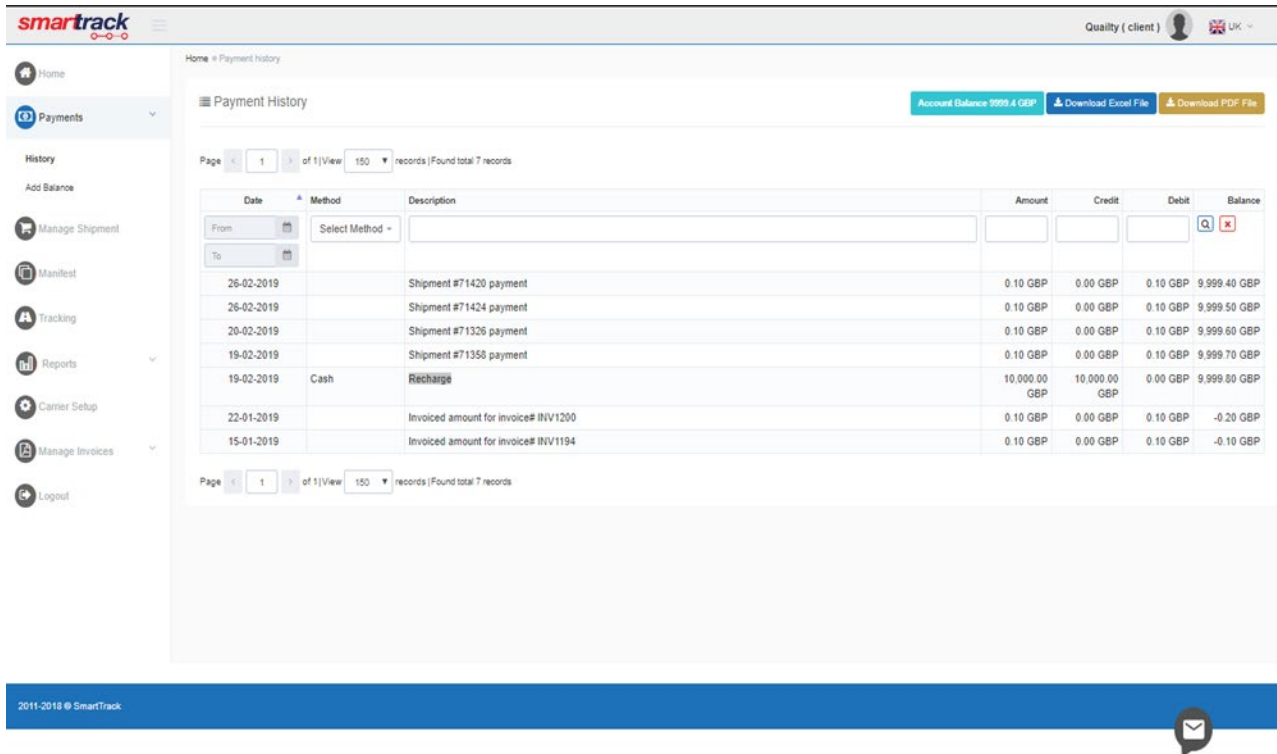

Figure 9-1 Payment History

User can download excel file and PDF file as shown below.

A	B	C	D	E	F

Closing Balance :9,999.40 GBP

Figure 9-3 Payment History pdf file

9.2. Add Balance

In our system, we have two types of Account; Prepaid and Postpaid.

Only Prepaid account users will be able to add balance.

User can add balance by Paypal, Bank Transfer and Cheque as shown in the figure below.

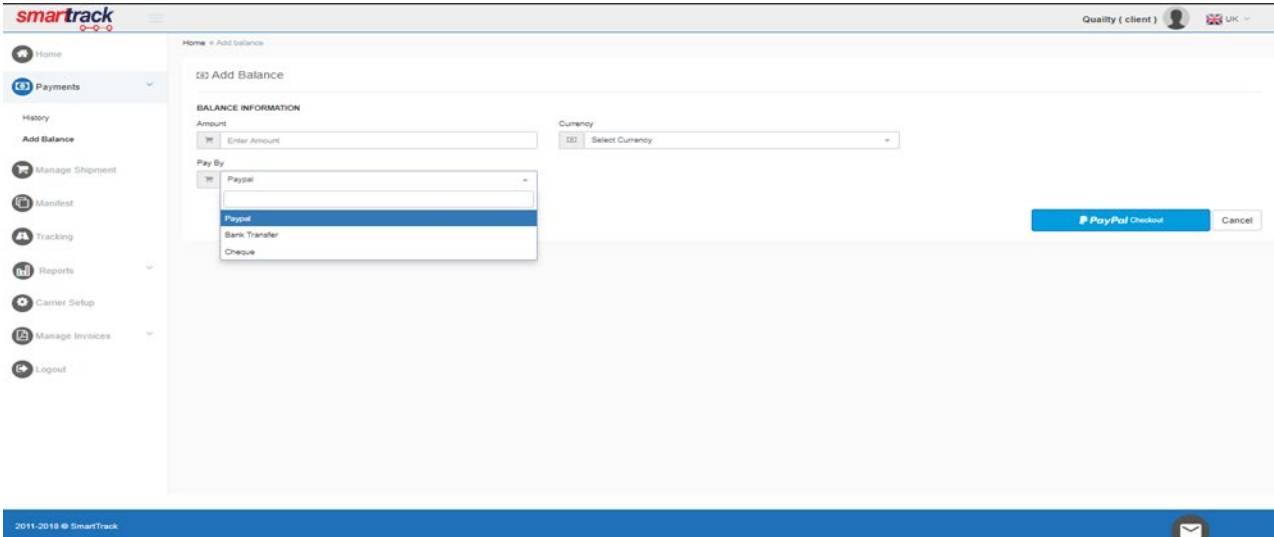

Figure 9-4 Add Balance for Prepaid Account

Once, user has added balance in his account, a request will be generated by the system to the Parent account to approve the request. After approval, user will be able to use that balance in generating shipments.

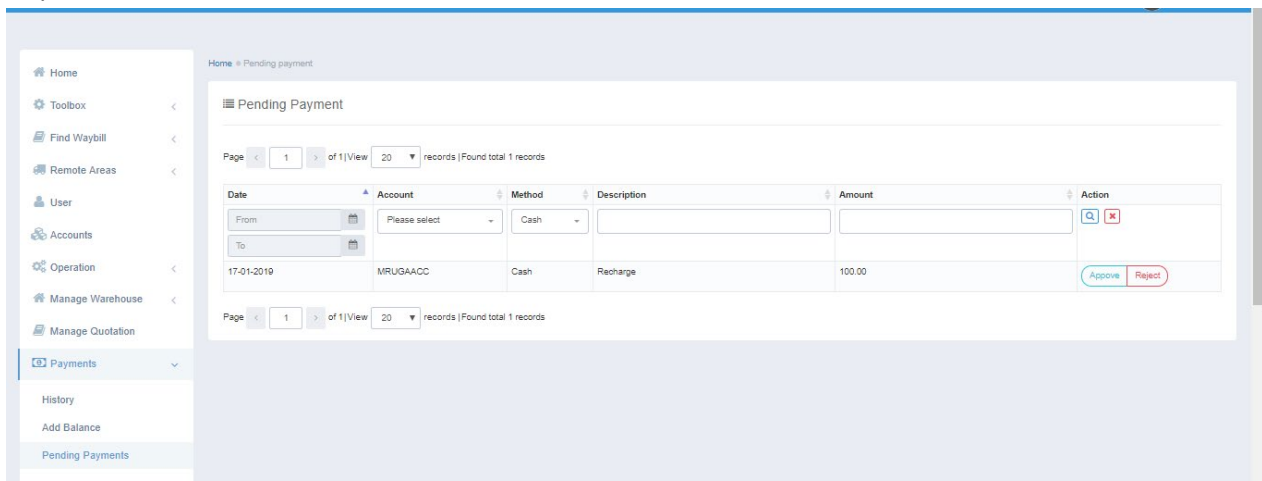

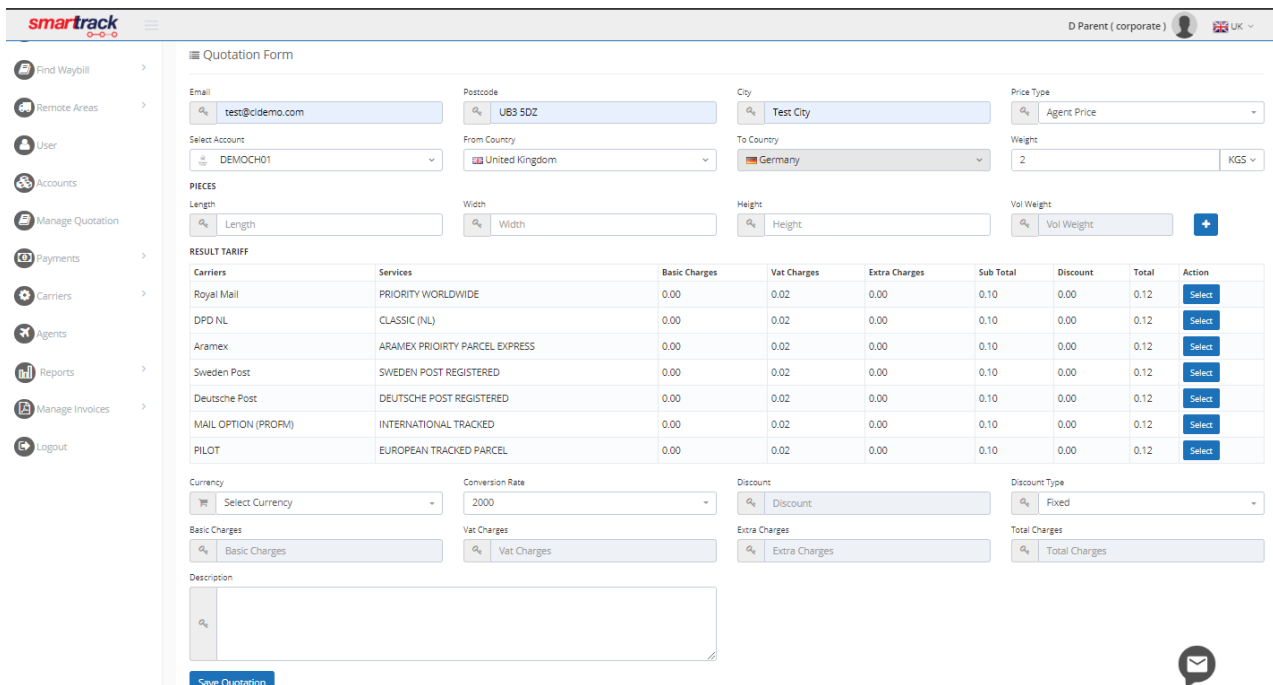

Figure 9-5 Request for Payment Approval

10. MANAGE QUOTATIONS

10.1. Add Manage Quotation

For instance, we have a new user that is not using our system at the moment. But they want to send a parcel and wants to get quotation from our system. We will simply takes its email address and use an account that has the same source and destination as client's requirement. We will populate that account and when we add weight, all available services within weight range along with its pricing will be populated. If user wants to use same pricing then he will select "Member Price" from Price Type and if he wants to manipulate price then he will select "Manual Price" in Price Type. Upon "Save Quotation", a quotation will be saved in quotations list.

The image shows the 'Quotation Form' in the SmartTrack application. The form is divided into several sections for data entry:

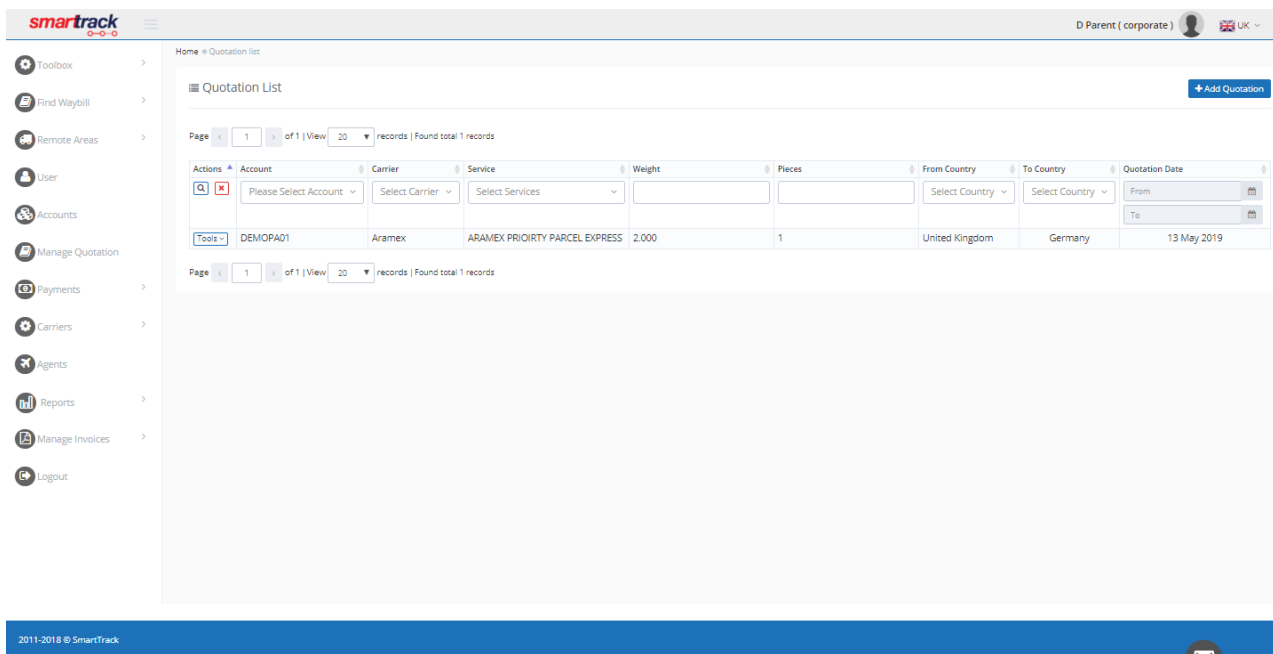

- Header:** Includes the SmartTrack logo, user 'D Parent (corporate)', and a UK flag.
- Form Fields:**
 - Email: test@demo.com
 - Postcode: UB3 5DZ
 - City: Test City
 - Price Type: Agent Price
 - Select Account: DEMOCH01
 - From Country: United Kingdom
 - To Country: Germany
 - Weight: 2 KGS
 - PIECES: Length, Width, Height, Vol Weight
- RESULT TARIFF Table:**

Carriers	Services	Basic Charges	Vat Charges	Extra Charges	Sub Total	Discount	Total	Action
Royal Mail	PRIORITY WORLDWIDE	0.00	0.02	0.00	0.10	0.00	0.12	Select
DPD NL	CLASSIC (NL)	0.00	0.02	0.00	0.10	0.00	0.12	Select
Aramex	ARAMEX PRIORITY PARCEL EXPRESS	0.00	0.02	0.00	0.10	0.00	0.12	Select
Sweden Post	SWEDEN POST REGISTERED	0.00	0.02	0.00	0.10	0.00	0.12	Select
Deutsche Post	DEUTSCHE POST REGISTERED	0.00	0.02	0.00	0.10	0.00	0.12	Select
MAIL OPTION (PROFM)	INTERNATIONAL TRACKED	0.00	0.02	0.00	0.10	0.00	0.12	Select
PILOT	EUROPEAN TRACKED PARCEL	0.00	0.02	0.00	0.10	0.00	0.12	Select
- Footer:** Includes a 'Save Quotation' button and a chat icon.

Figure 10-1 Add Quotation

10.2. Quotations List

User can view all the quotations from quotation list. User can also download pdf file of this list and can send email to the new client using “Send Email” feature added in “Tools” drop down.

The image shows the 'Quotation List' in the SmartTrack application. It includes a sidebar with navigation options and a main table of quotations.

Quotation List Table:

Actions	Account	Carrier	Service	Weight	Pieces	From Country	To Country	Quotation Date
Tools	DEMOPA01	Aramex	ARAMEX PRIORITY PARCEL EXPRESS	2.000	1	United Kingdom	Germany	13 May 2019

The interface also features a 'Page 1 of 1' indicator, a 'View' dropdown, and a 'Found total 1 records' message.

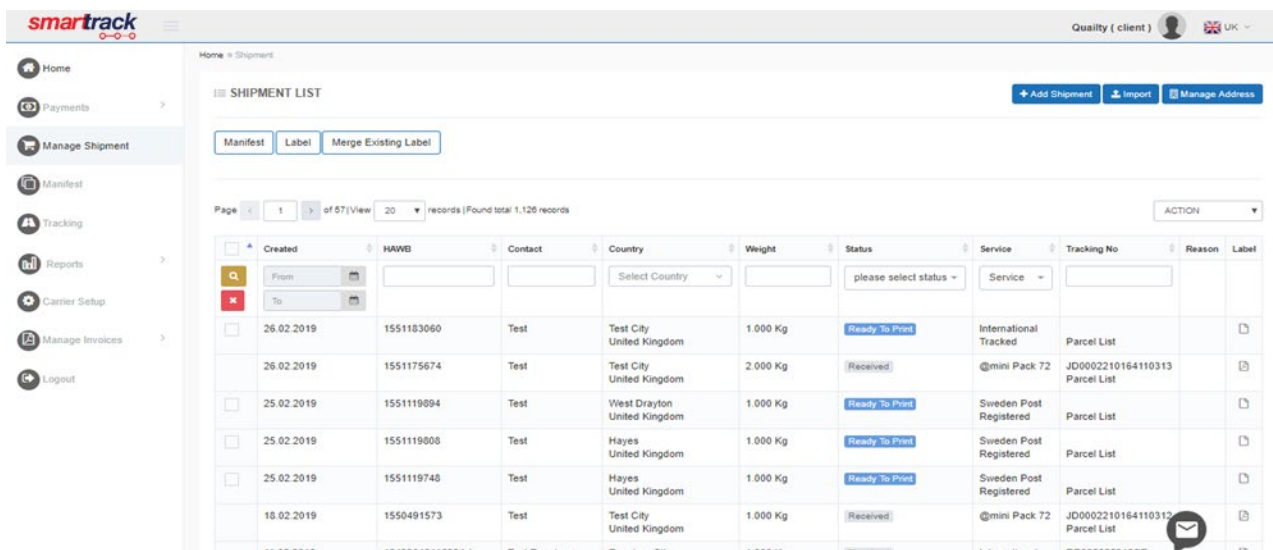

Figure 10-2 Quotations List

11. MANAGE SHIPMENTS

Shipments are basically the parcels that client need to deliver from one place to the other. User can add shipments through following two processes:

- Add New Shipment via the webpage
 - Upload Shipment Data by downloading CSV template and then importing it
- There are three types of shipments base on services
- Dispatch (Source to destination)
 - Collection (Collect parcel from user destination)
 - Drop off (User can submit their parcel nearby his own location)

User will navigate to “Manage Shipment” tab from navigation panel and a list of all shipments are displayed here as shown in the figure below

Created	HAWB	Contact	Country	Weight	Status	Service	Tracking No	Reason	Label
26.02.2019	1551183060	Test	Test City United Kingdom	1.000 Kg	Ready To Print	International Tracked	Parcel List		
26.02.2019	1551175674	Test	Test City United Kingdom	2.000 Kg	Received	@mini Pack 72	JD0002210164110313 Parcel List

IMPORT SHIPMENT

Select Account Select User

Select CSV Template

Select file to import

Note:
Please be advised that surcharges apply for remote postcode areas. Please check the postcode listings and your rate card for applicable surcharges. Maximum up-loadable weight per Parcel is 25kg and no longer than 180cm on the longest side for the CSV upload service. However, each service may have different maximum and minimum sizing requirements and parcels may be subject to surcharges for out of gauge, girth or other if they exceed any of the services limitations. Please check your rate card or with your account manager or customer service for clarification on minimum and maximum sizes for the service that you wish to use.

Figure 11-3 Add New Shipment via CSV import

The newly added shipments are displayed in the list with “Ready to Print” status.

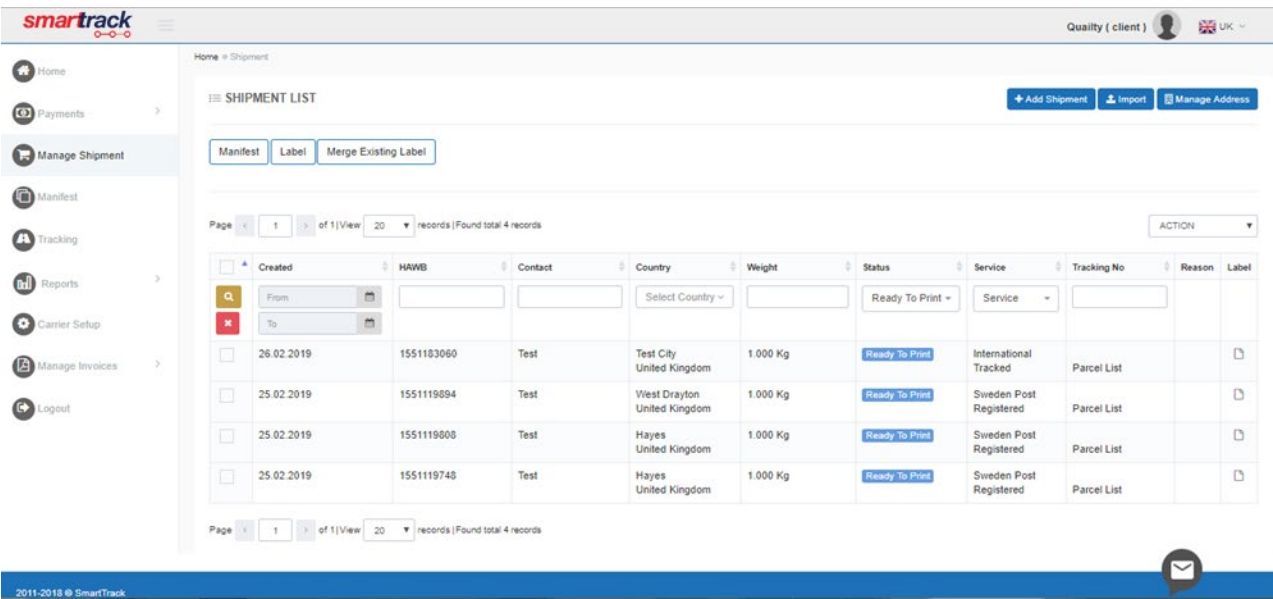

Figure 11-4 “Ready to Print” Shipments

11.3. **Generate custom template**

User can generate their own template for import csv.

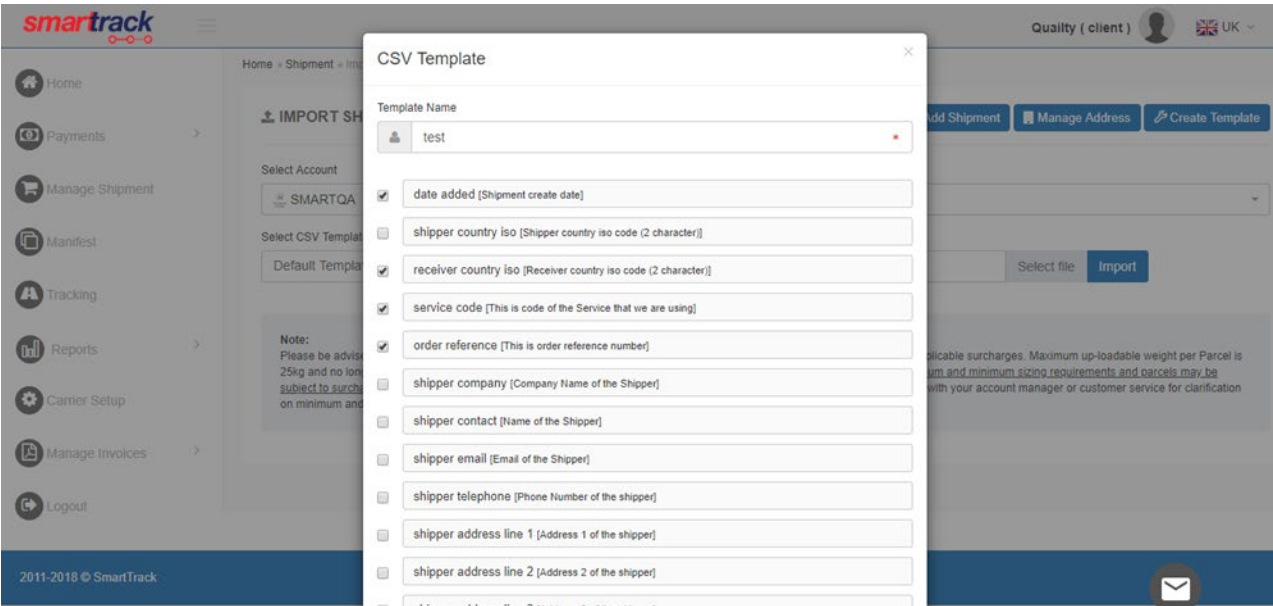

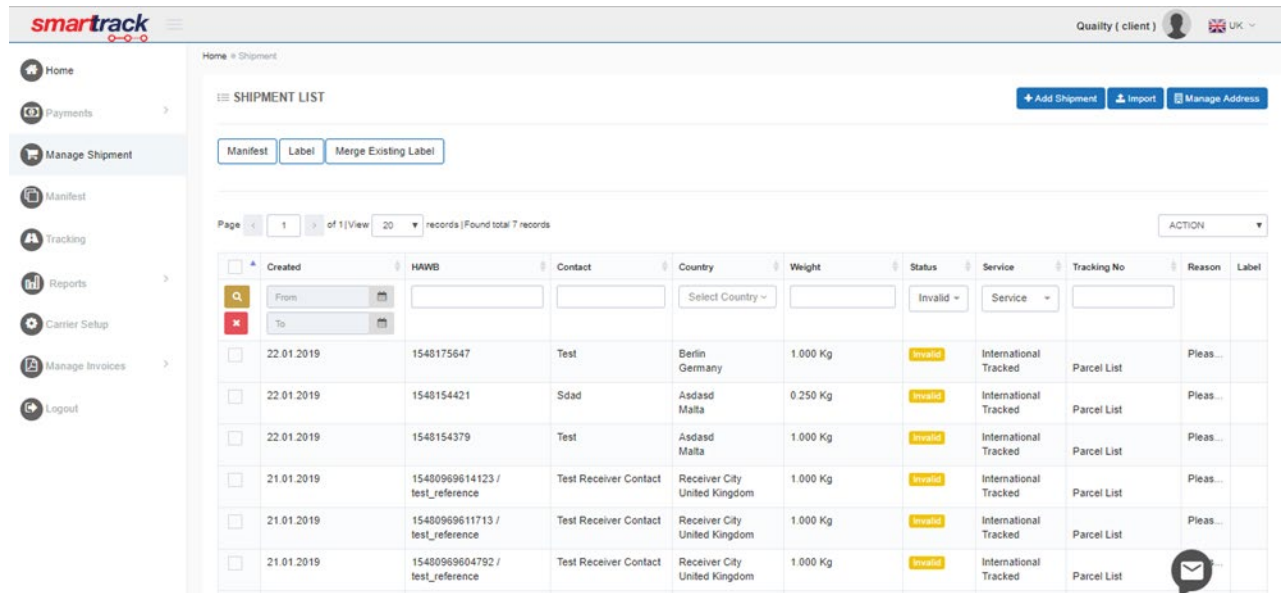

Figure 11-5 Custom template

11.4. Status of Shipments

Following are the statuses of shipments that depicts in which state user's shipment is:

11.4.1. Invalid

A shipment is invalid if there is any error but its HAWB number is created. It means user can remove that error and shipment will be available to deliver.

The screenshot shows the 'SHIPMENT LIST' page in the SmartTrack application. The interface includes a sidebar with navigation options like Home, Payments, Manage Shipment, Manifest, Tracking, Reports, Carrier Setup, Manage Invoices, and Logout. The main content area displays a table of shipments with columns for Created, HAWB, Contact, Country, Weight, Status, Service, Tracking No, Reason, and Label. The 'Status' column for all listed shipments is 'Invalid', indicated by a yellow tag. The table also includes search filters for From, To, and Country, and a pagination bar at the bottom.

Created	HAWB	Contact	Country	Weight	Status	Service	Tracking No	Reason	Label
22.01.2019	1548175647	Test	Berlin Germany	1.000 Kg	Invalid	International Tracked	Parcel List	Pleas...	
22.01.2019	1548154421	Sdad	Asdasd Malta	0.250 Kg	Invalid	International Tracked	Parcel List	Pleas...

Figure 11-6 "Invalid" Shipments

11.4.2. Hold

User can hold any shipment if he doesn't want to deliver that parcel on the day. He can UN hold and send that shipment when feasible for him.

Figure 11-7 "Hold" Shipments

11.4.3. Deleted

User can delete any shipment if he had added any shipment but do NOT want that shipment to be delivered or if someone has cancelled that order.

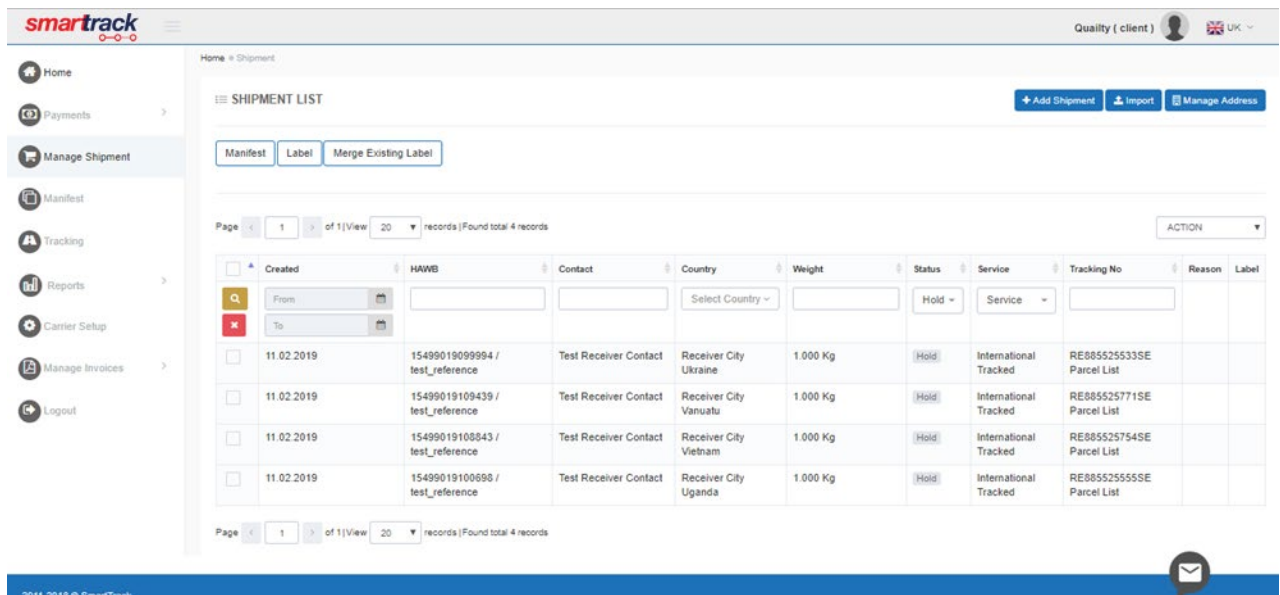

Figure 11-8 “Deleted” Shipments

11.4.4. Ready to Print

When user creates an accurate shipment, it is displayed in the list as a “Ready to Print” shipment. User can then generate its label to continue further process on it.

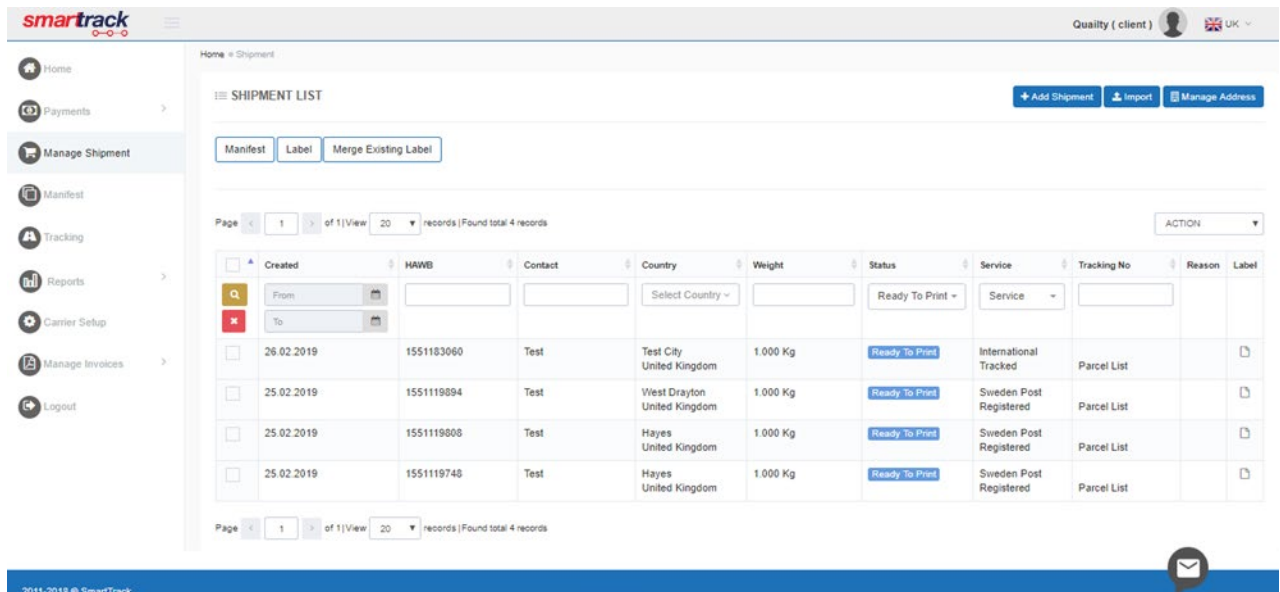

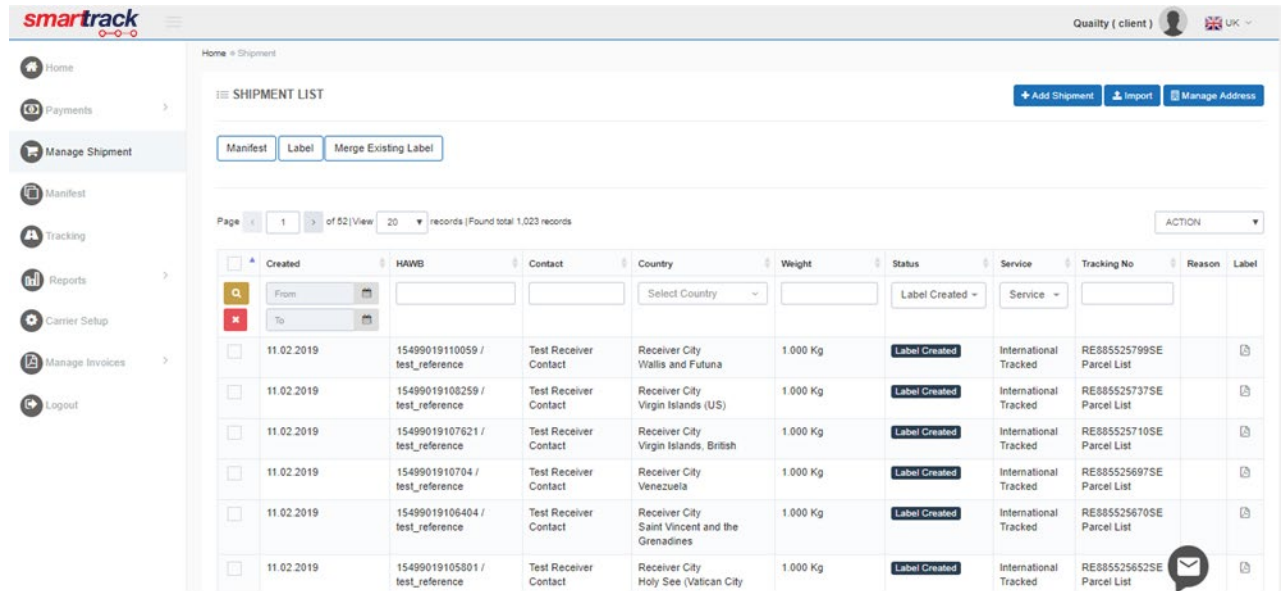

Figure 11-9 “Ready to Print” Shipments

11.4.5. Label Created

When user generates label of any shipment, its status changes to “Label Created” and it will be available to further process.

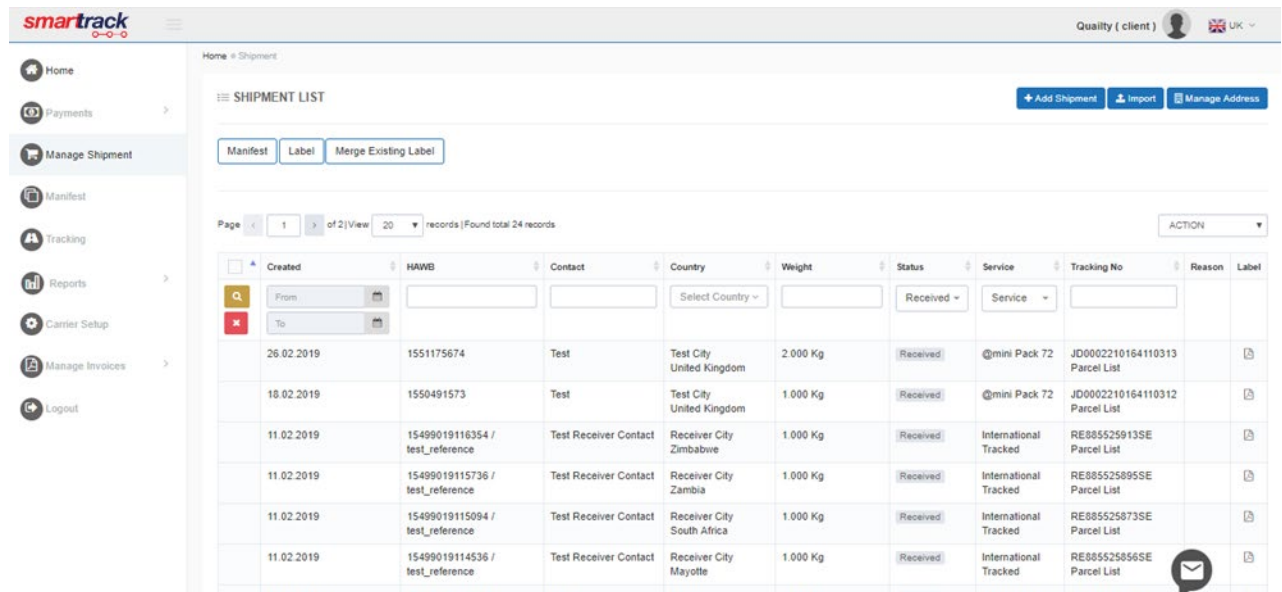

The screenshot shows the 'SHIPMENT LIST' page in the smarttrack application. The status filter is set to 'Label Created'. The table displays the following data:

Created	HAWB	Contact	Country	Weight	Status	Service	Tracking No	Reason	Label
11.02.2019	15499019110059 / test_reference	Test Receiver Contact	Receiver City Wallis and Futuna	1.000 Kg	Label Created	International Tracked	RE885525799SE Parcel List

Figure 11-13 "IN transit" Shipments

11.4.9. Delivered

When the shipment is delivered at the destination, its status is changed to “Delivered”.

The screenshot shows the 'smarttrack' web application interface. The left sidebar contains navigation links: Home, Payments, Manage Shipment (highlighted), Manifest, Tracking, Reports, Carrier Setup, Manage Invoices, and Logout. The main content area is titled 'SHIPMENT LIST' and includes buttons for 'Add Shipment', 'Import', and 'Manage Address'. Below these are tabs for 'Manifest', 'Label', and 'Merge Existing Label'. A search bar with 'From' and 'To' date pickers is present. The table below lists shipments with columns: Created, HAWB, Contact, Country, Weight, Status, Service, Tracking No, Reason, and Label. All listed shipments have a status of 'Delivered'.

Created	HAWB	Contact	Country	Weight	Status	Service	Tracking No	Reason	Label
11.02.2019	15499019040213 / test_reference	Test Receiver Contact	Receiver City Malaysia	1.000 Kg	Delivered	International Tracked	LB655300363SE Parcel List

Figure 11-14 “Delivered” Shipments

11.4.10. Returned

If the destination is not found or any contact person do NOT receive the parcel, it is returned to the OWE Warehouse and its status is changed to “Returned”.

11.4.11. Closed

When the shipment is delivered and all its process is done, its status is changed to “Closed”.

The screenshot shows the SmartTrack application interface. The top navigation bar includes the SmartTrack logo, a user profile for 'Developer (admin)', and a language selector set to 'UK'. A left sidebar contains a menu with options like Home, Find Waybill, Remote Areas, User, Accounts, Operation, Manage Warehouse, Permissions & Actions, Carriers, Department, Agents, Manage Shipment, and Manifest. The main content area is titled 'SHIPMENT LIST' and features buttons for '+ Add Shipment', 'Import', and 'Manage Address'. Below these are buttons for 'Manifest', 'Label', and 'Merge Existing Label'. A pagination bar indicates 'Page 1 of 1 | View 20 records | Found total 8 records'. The table below lists shipments with columns for Created, Accounts, HAWB, Contact, Country, Weight, Status, Service, Tracking No, Reason, and Le. Three shipments are shown, all with a 'Closed' status.

Created	Accounts	HAWB	Contact	Country	Weight	Status	Service	Tracking No	Reason	Le
31.05.2018	SMARTTRACK	503774532227	Tahir Akbar	Afd United Kingdom	1,000 Kg	Closed	Express World Wide (non Doc)	7884928435

Figure 11-16 “Closed” Shipments

11.5. Create Labels of Shipments

Users can create labels of shipments by following three ways:

- By clicking on icon displayed against each icon
- By clicking on “Label” button and selecting shipments that user want to create label and clicking on “Print Selected”
- By clicking on “Label” button and clicking on “Print All”.

By clicking “Print All’ button, all the shipments that are in “Ready to Print” status will be converted to “Label Created” status.

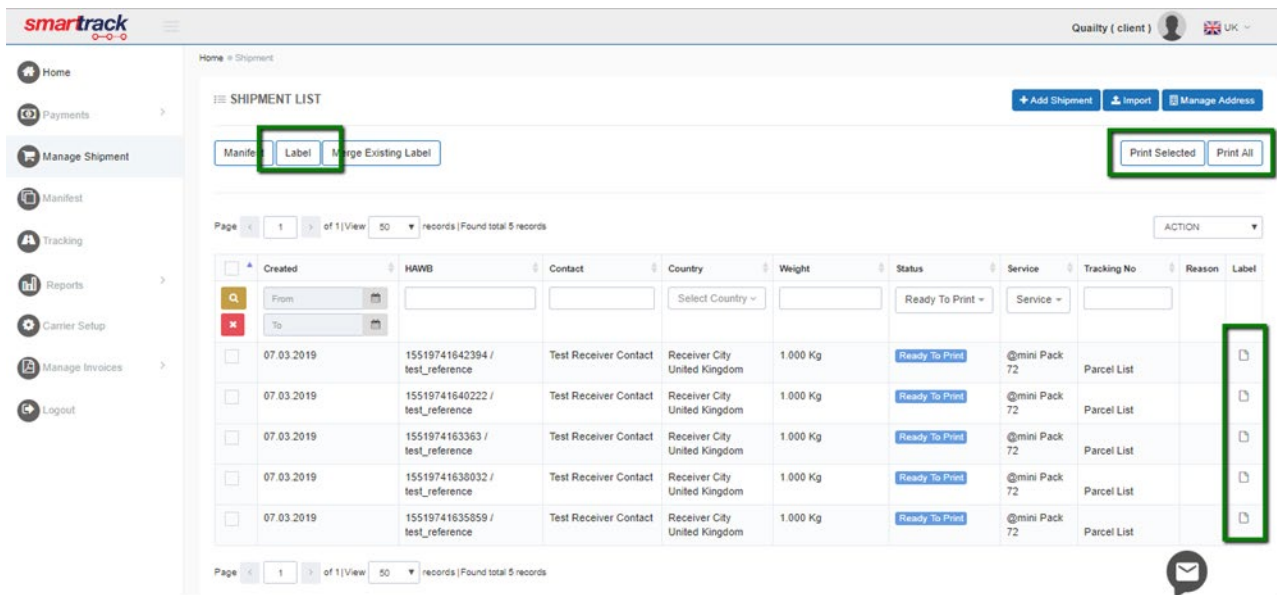

Figure 11-17 How to create labels of Shipments

11.6. Create Manifest of Shipments

Users can create manifest of shipments by following two ways:

- By clicking on “Manifest” button and selecting shipments that user want to manifest and clicking on “Manifest Selected”
- By clicking on “Manifest” button and clicking on “Manifest All”

By clicking “Print All’ button, all the shipments that are in “Ready to Print” status will be converted to “Label Created” status.

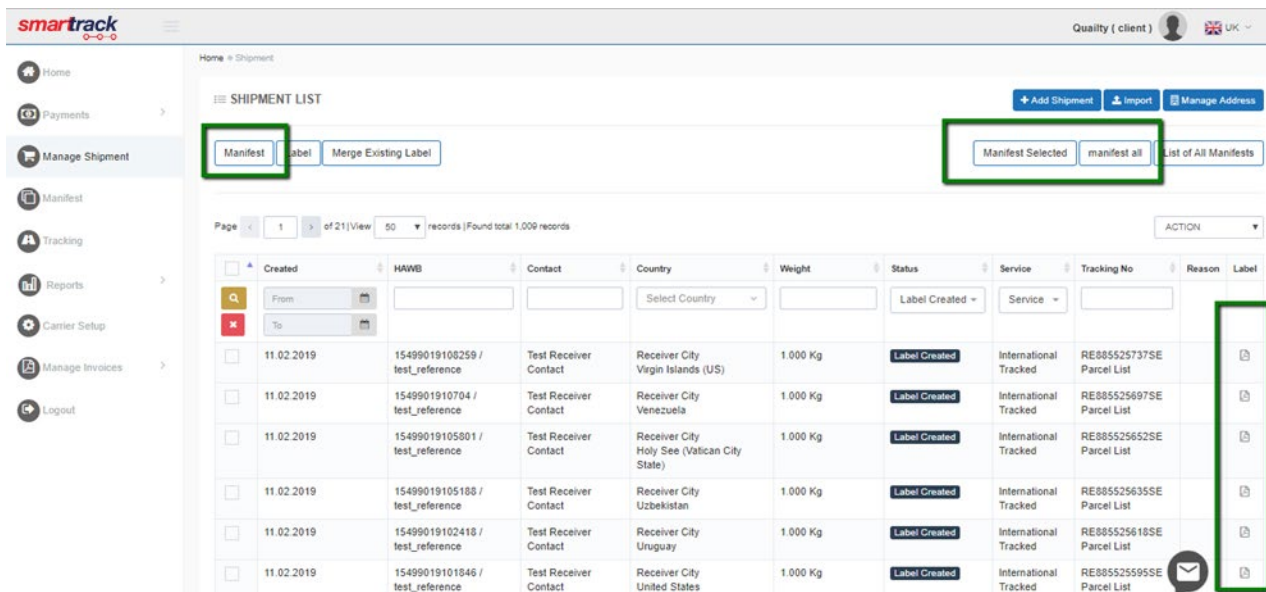

Figure 11-18 How to create Manifest of Shipments

After creating manifest, a list of all manifest reports are displayed in the list as shown in below figure.

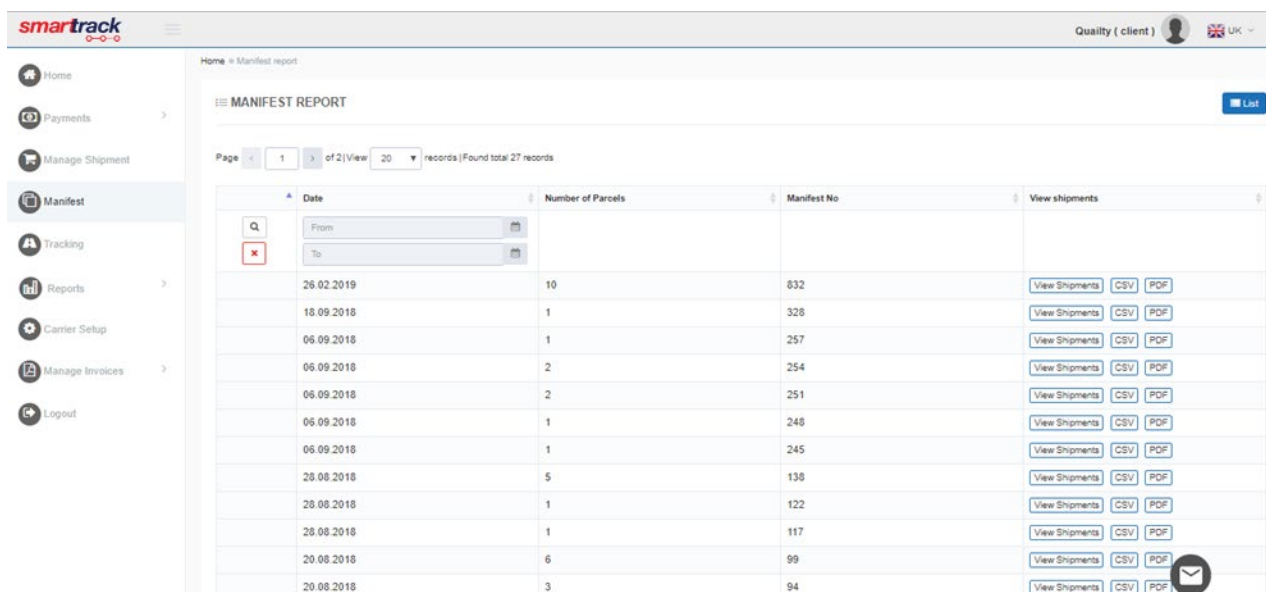

Figure 11-19 Manifest Report

11.7. How to Export, Delete, Hold, UN hold and Restore Shipments

User is able to Export, Delete, Hold, UN hold and Restore any shipment before its manifest is created. There are checkboxes present against each shipment to select and an action drop down to perform different actions like Export, Delete, Hold etc.

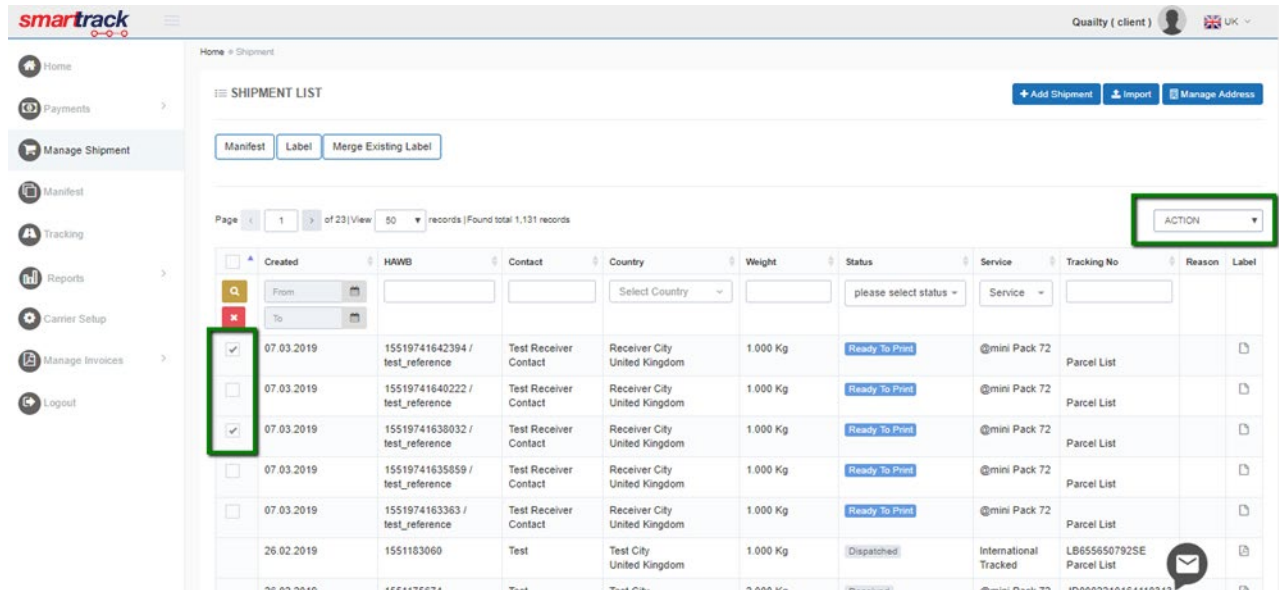

Figure 11-20 How to Export, Delete, Hold, UN hold, and Restore Shipments

11.8. How to Track any Shipment?

User is able to track its shipments as well. There are two ways to track a shipment.

- By clicking on the “Tracking No” displayed against each shipment
- By going to Tracking page and entering “Tracking No” of any shipment there.

Below figure displays single tracking of a shipment.

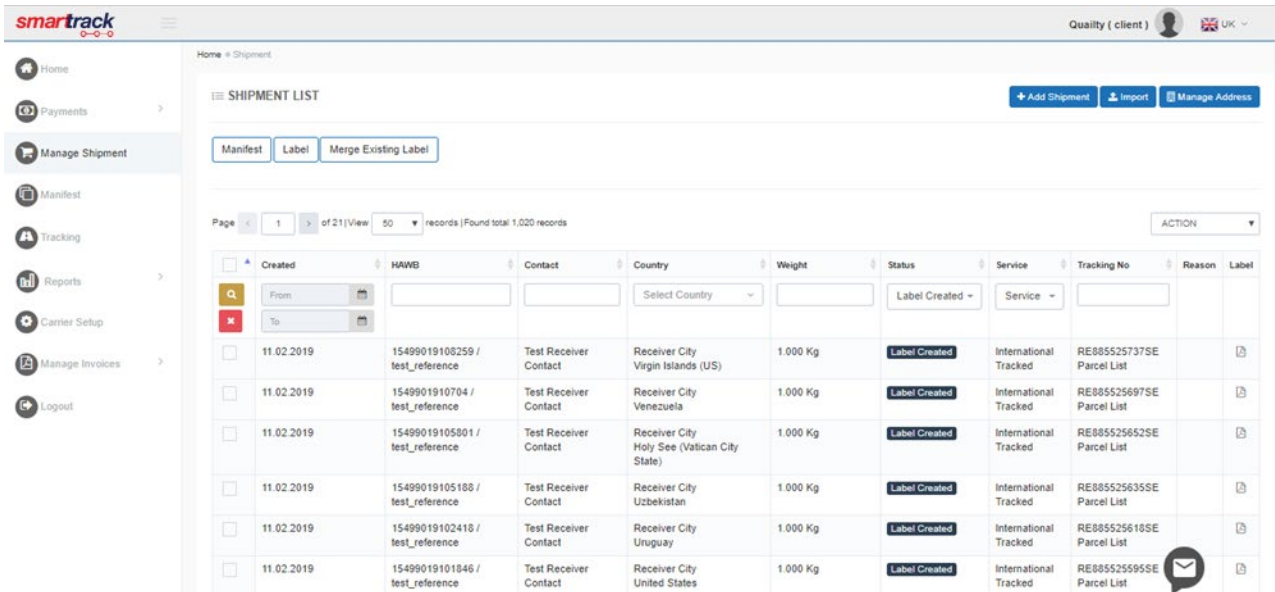

Figure 11-21 How to track single shipment

Below figure displays a multi-tracking shipment.

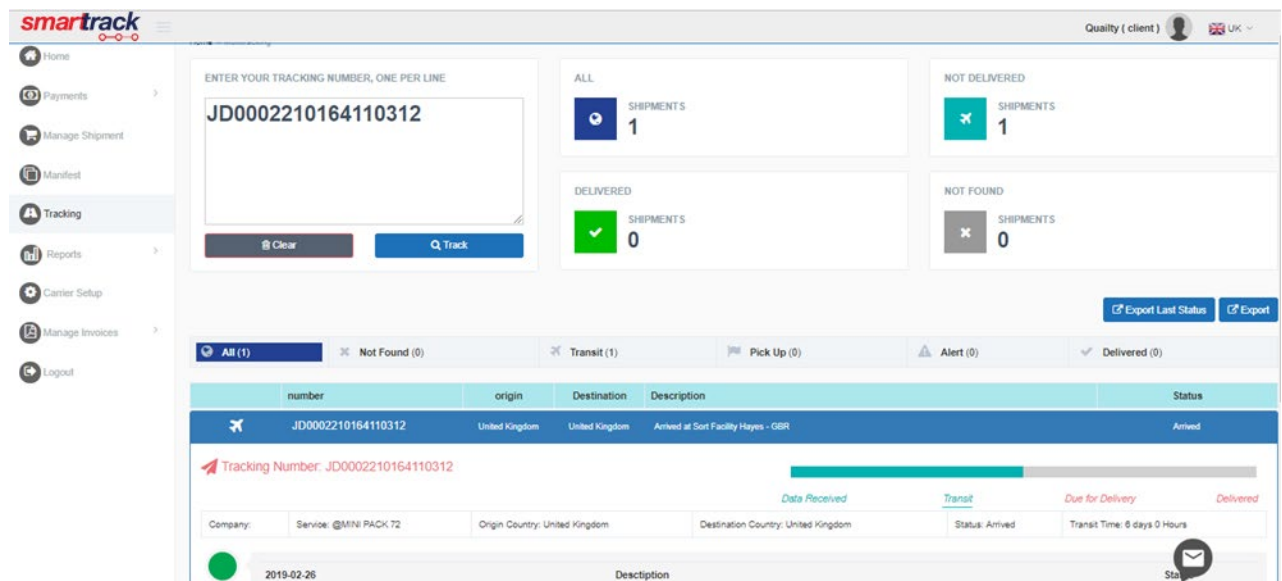

Figure 11-22 How to track multiple shipments

12. Manifest

User can view a list of all manifest reports displayed in the list as shown in below figure. User also have following access on this screen:

- View Shipments
- Download CSV
- Download PDF

By View Shipments, user is able to see all the shipments present in one manifest.

Date	Number of Parcels	Manifest No	View shipments
26.02.2019	10	832	View Shipments CSV PDF
18.09.2018	1	328	View Shipments CSV PDF

28.08.2018	1	117	View Shipments CSV PDF
20.08.2018	6	99	View Shipments CSV PDF
20.08.2018	3	94	View Shipments CSV PDF

Figure 12-1 Manifest Report

13. Tracking

User is able to track its shipments as well. There are two ways to track a shipment.

- By clicking on the “Tracking No” displayed against each shipment
- By going to Tracking page and entering “Tracking No” of any shipment there.

Below figure displays a multi-tracking shipment. User can add as many tracking numbers as he want and can view its tracking by expanding its tracking number displayed at the screen.

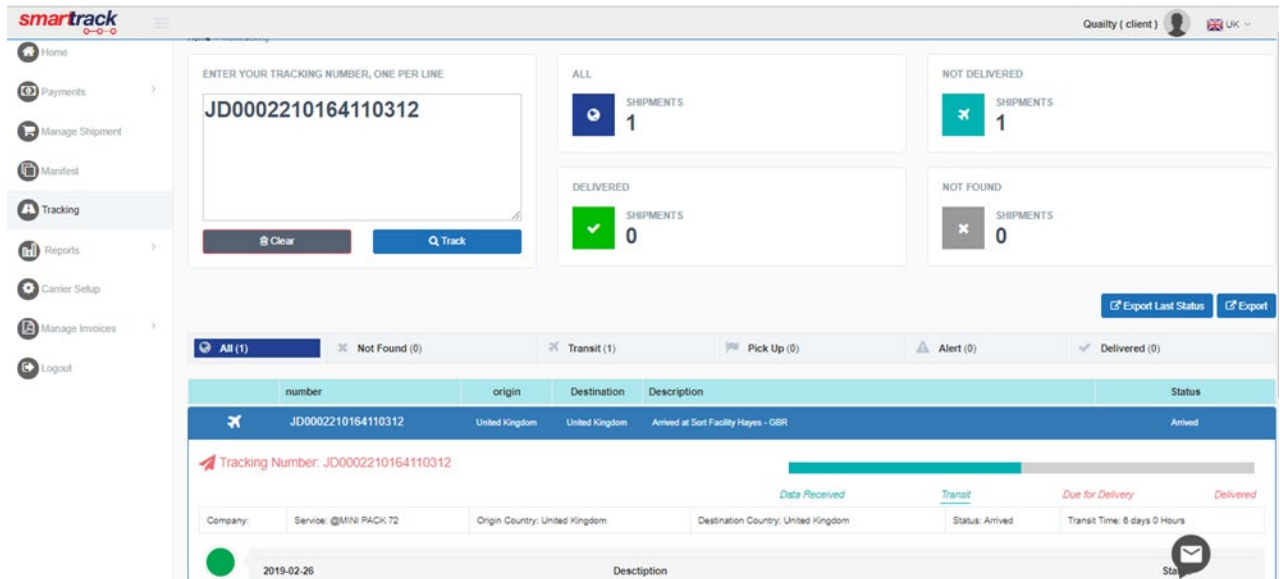

Figure 13-1 How to track multiple shipments

14. Carriers

Here is the list of carriers displayed that user can use to create shipments. This module is for “Super Admin” users. Only a Super Admin can add, update and delete carriers and its services. There are four options displayed in Carriers tab as described below:

- Carriers List
- Services List
- Carrier Zones
- Tariffs List

14.1. Carriers List

A list of all carriers added in the system is displayed here. User can also add/update any carrier from the same screen.

Smart Track Carriers						
Logo	Name	Display Name	Country	Cut Off Time	Currency	Active
	Airborne	Airborne	United Arab Emirates		GBP	No
	An Post	An Post	Ireland	16:00	GBP	No
	Aramex	Aramex	United Kingdom	19:00	GBP	No
	BRT ITALY	BRT ITALY	United Kingdom		GBP	No
	Cacesa Express	Cacesa Express	United Kingdom		GBP	Yes
	Correos	Correos	United Kingdom		GBP	No
	CPOST	CPOST	Curacao	18:00	GBP	No

Figure 14-2 Downloaded Carriers List

14.2. Services List

A list of all services associated with any specific carrier added in the system is displayed here. User can add new services in the list by clicking on “Add Services” button displayed at top of the screen. The list of services is displayed in below figure.

Figure 14-4 Downloaded Services List

User can add new services by filling the form given below.

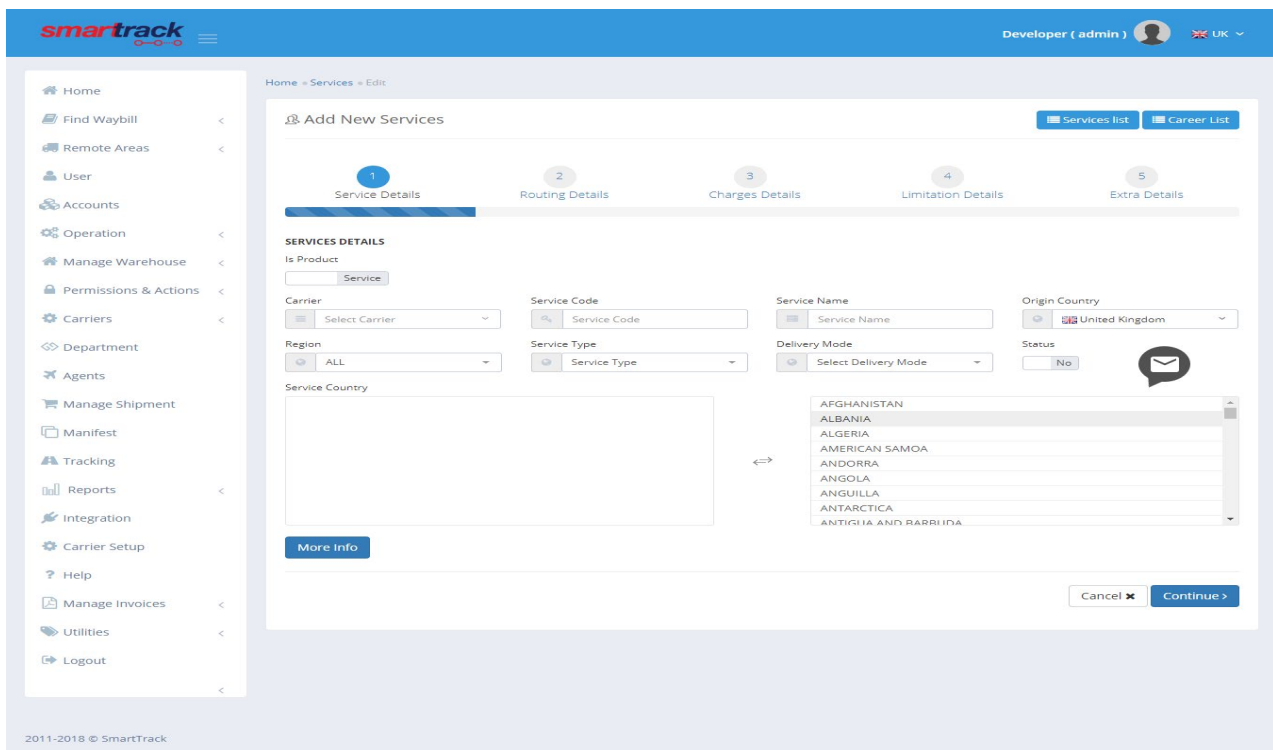

Figure 14-5 Add New Service

14.3. Carrier Zones

The zones added to any carrier is listed here. User can add/update any carrier zone along with the countries he wants to add if available. User can name the zone on its own to remember and to search for the same zone instantly.

The screenshot displays the SmartTrack web application interface. The top navigation bar includes the SmartTrack logo, a user profile for 'Developer (admin)', and a language selector set to 'UK'. The left sidebar contains a menu with options like Home, Find Waybill, Remote Areas, User, Accounts, Operation, Manage Warehouse, Permissions & Actions, Carriers, Tariff List, Department, Agents, Manage Shipment, Manifest, Tracking, Reports, Integration, Carrier Setup, Help, Manage Invoices, Utilities, and Logout. The 'Carriers' menu is expanded, showing 'Carriers List', 'Services List', and 'Carrier Zones'.

The main content area is titled 'Home » Carrier zones'. It features a form for 'Add/Update Carrier Zone' with fields for 'Carrier Name' (a dropdown), 'Carrier Service' (a dropdown), 'Zone Name' (a text input), and 'Sort Order' (a dropdown). Below these fields are two search boxes for 'Zone Countries' and a list of countries including Afghanistan, Albania, Algeria, American Samoa, Andorra, Angola, Anguilla, Antarctica, and Antigua and Barbuda. A 'Save' button and a 'Cancel' button are at the bottom of the form. A 'Carrier Listing' button is also present.

Below the form is a table titled 'Carrier Zones List'. The table has columns for 'Actions', 'Name', 'Carrier', and 'Service'. The 'Actions' column contains a search icon and a 'Tools' dropdown for each row. The 'Name' column lists various zones like 'UK Mail Zone 1', 'testzone6', 'test zone', 'UNITED KINGDOM', 'zone8', 'zone7', 'zone6', 'zone5', 'zone3', 'zone2', 'zone1', 'Angola Zone', 'A Zone', 'Test Zone', 'Test Service 1', 'testzone5', 'testzone3', 'Shabbir', 'United Kingdom', and '2r23r ds'. The 'Carrier' column shows 'Deutsche Post' for most zones and 'Royal Mail' for 'United Kingdom'. The 'Service' column shows an empty dropdown for all zones. The table includes pagination controls at the bottom, showing 'Page 1 of 4' and 'View 20 records | Found total 67 records'.

The footer of the page indicates '2011-2018 © SmartTrack'.

14.4. **Tariffs List**

A list of tariffs along with their services and carriers is listed here. User is allowed to add new tariffs as well by clicking on “Add Tariff” button displayed at top of the screen. A list of tariffs is displayed in the figure given below.

Figure 14-8 Add/Update Tariff

User can also download tariff list.

Figure 15-1 Agent List

15.1. Add New Agent

User can add new agent in the list by clicking on “Add New Agent” button displayed at top of agent list. Following is the screen from where user can add a new agent.

The screenshot displays the 'Add Agent' form in the SmartTrack application. The form is organized into two main sections: 'AGENT INFORMATION' and 'CONTACT DETAILS'. In the 'AGENT INFORMATION' section, there are input fields for 'Agent Type' (a dropdown menu), 'Agent Code', 'Agent Name', and a 'Status' toggle switch currently set to 'No'. Below this is an 'Agent Logo' section with a 'Select file' button and a note about recommended logo dimensions (254 x 62). The 'CONTACT DETAILS' section includes fields for 'Contact Name', 'Address Line 1', 'Address Line 2', 'Address Line 3', 'City', 'Country' (a dropdown menu), 'Postcode', 'Mobile', and 'Telephone'. A 'Remark (Notes and important relevant Information):' text area is located at the bottom of the form. The form has 'Save' and 'Cancel' buttons at the bottom right. The left sidebar contains a list of navigation options, and the top header shows the SmartTrack logo and the user 'Developer (admin)' with a UK flag.

Figure 15-2 Add New Agent

User is able to perform following actions on agents added in the list.

- View an Agent
- Edit an Agent
- Delete an Agent

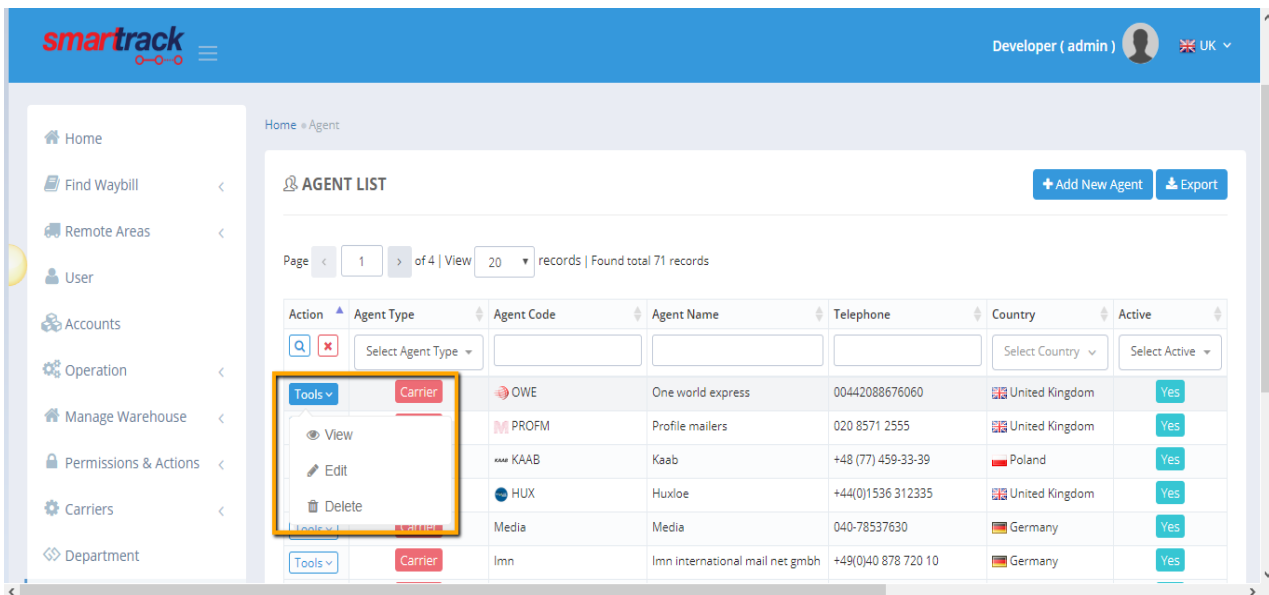

Figure 15-3 Actions on Agents List

15.2. View an Agent

User can view the information added against any agent from “View” link displayed in the action drop down.

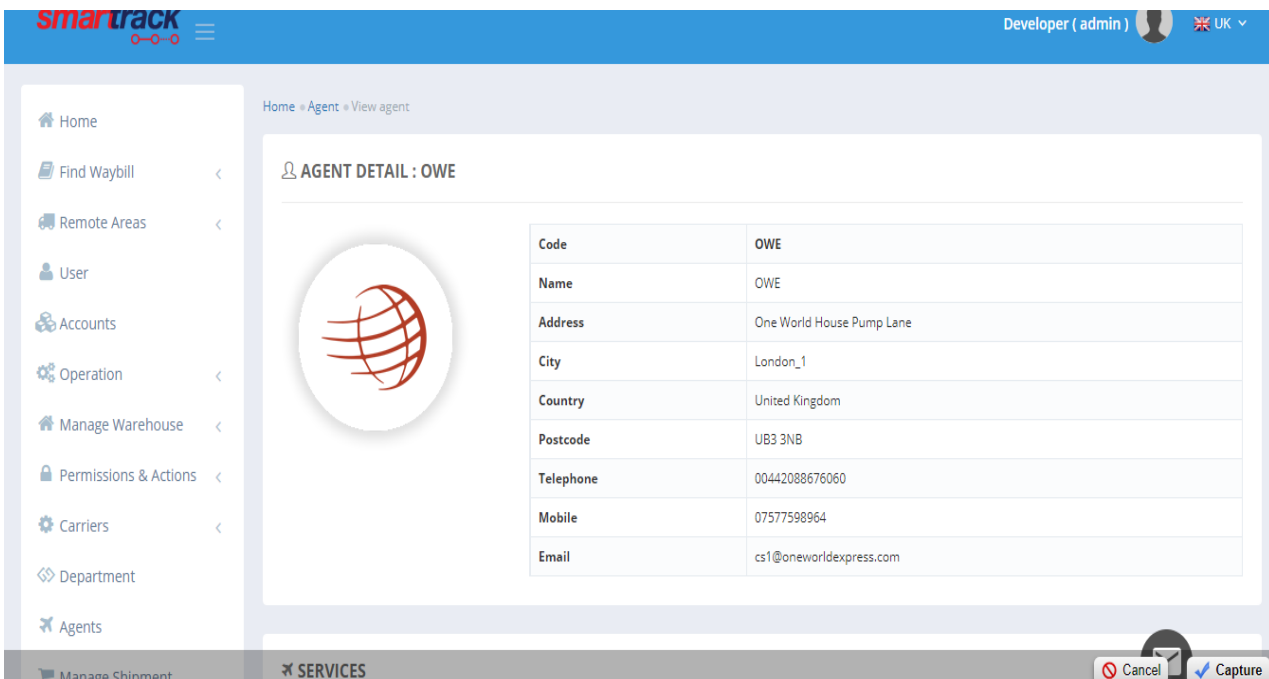

Figure 15-4 View an Agent

15.3. Edit an Agent

User can update the information added against any agent from “Edit” link displayed in the action drop down.

The screenshot displays the 'Edit Agent' interface in the SmartTrack application. The top navigation bar shows the user is logged in as 'Developer (admin)' with a UK flag. The left sidebar lists various system functions like Home, Find Waybill, Remote Areas, User, Accounts, Operation, Manage Warehouse, Permissions & Actions, Carriers, Department, Agents, Manage Shipment, Manifest, Tracking, Reports, Integration, Carrier Setup, Help, Manage Invoices, Utilities, and Logout. The main content area is titled 'Edit Agent' and includes an 'Agent List' button. The form is organized into four main sections: 1. 'AGENT INFORMATION' with fields for Agent Type (set to 'Carrier'), Agent Code ('OWE'), Agent Name ('One World Express'), and Status ('Yes'). It also features an 'Agent Logo' upload area with a 'Select file' button and a note about recommended dimensions (254 x 62). 2. 'CONTACT DETAILS' with fields for Contact Name ('Gordon Shuttleworth'), Address Line 1 ('One World House'), Address Line 2 ('Pump Lane'), Address Line 3 ('Hayes'), City ('London_1'), Country ('United Kingdom'), Postcode ('UB3 3NB'), Telephone ('00442088676060'), and Mobile ('07577598964'). There is also a 'save this contact' checkbox. 3. 'Remark (Notes and important relevant Information):' which contains a text area with a pre-filled note about One World Express as an agent for SmartTrack. 4. 'AGENT DOCUMENTS COPY' which shows a 'Document Type' dropdown set to 'User Document Type' and a 'Document' upload area with a 'Select file' button and an 'Upload' button. Below this, there are three document thumbnails: one is a PDF file named 'T & Cs' with 'View' and 'Remove' buttons, and the other two are placeholders labeled 'NO IMAGE FOUND' with 'View' and 'Remove' buttons. At the bottom of the form are 'Save', 'Audit', and 'Cancel' buttons.

Figure 15-5 Edit an Agent

15.4. Delete an Agent

User can delete any agent from the list by clicking on “Delete” link displayed in the action drop down. A confirmation pop up is displayed as below when user clicks on delete link. Upon user selection of “Yes”, the agent is deleted successfully.

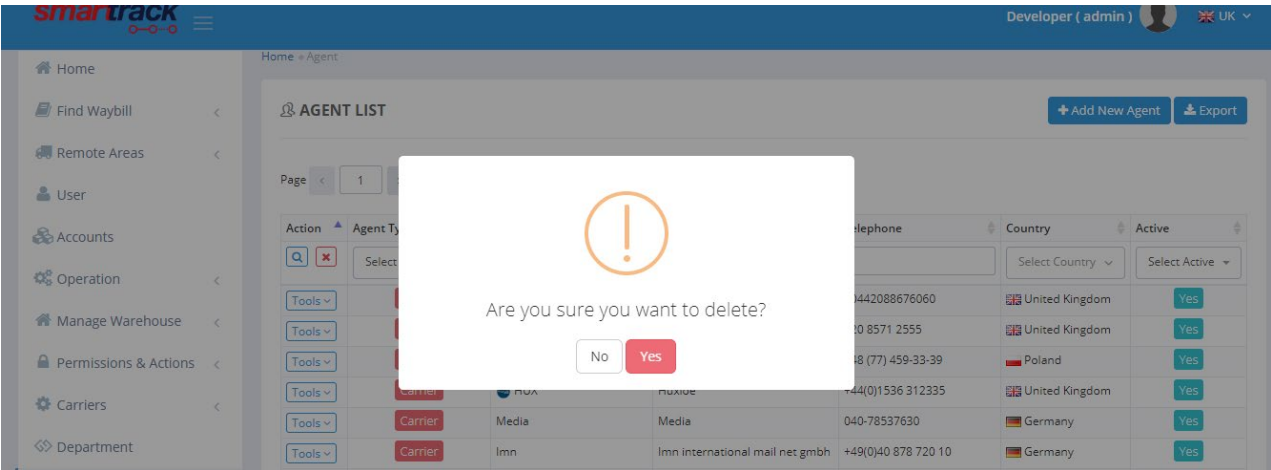

Figure 15-6 Delete an Agent

User can also export agent list in excel sheet form by clicking on “Export” button displayed at top of Agent List screen along with “Add New Agent”.

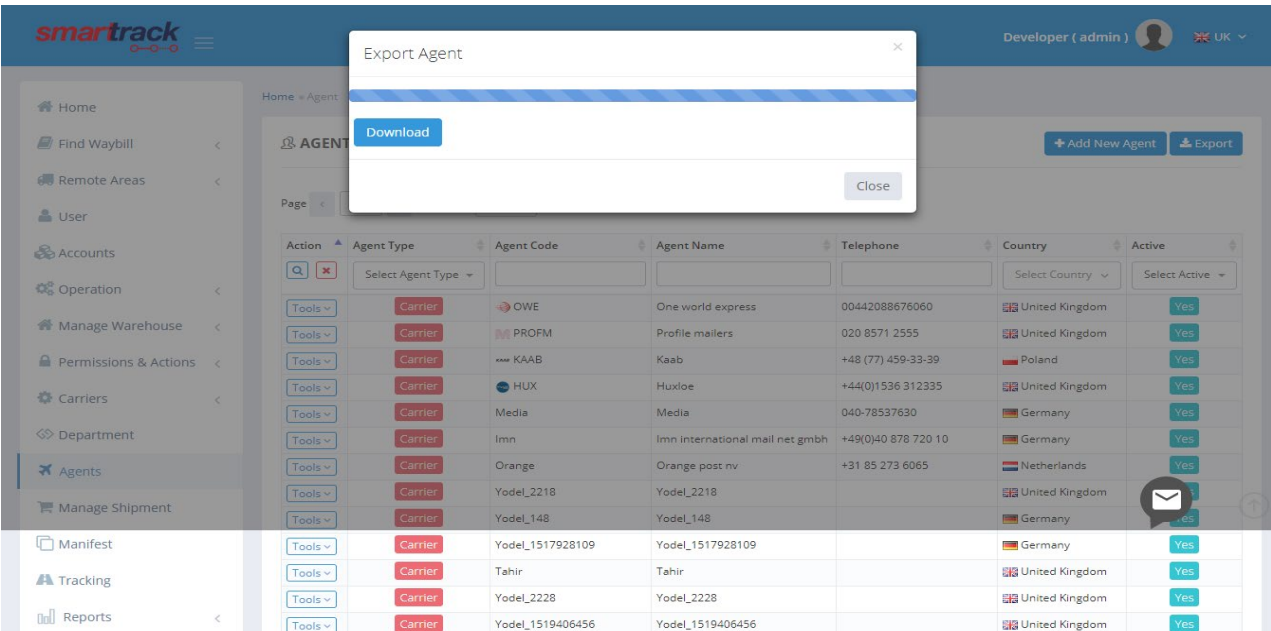

Figure 15-7 Download Agents List

16. CARRIER SETUP

Carrier setup is the screen where user can see the carriers that are associated to his account. User need to accept terms and conditions to use that carrier. There are two tabs displayed in Carrier Setup screen as follows:

- Carrier Selection
- Contracts

16.1. Carrier Selection

Below is shown the screen of Carrier setup. This is “Carrier Selection” tab.

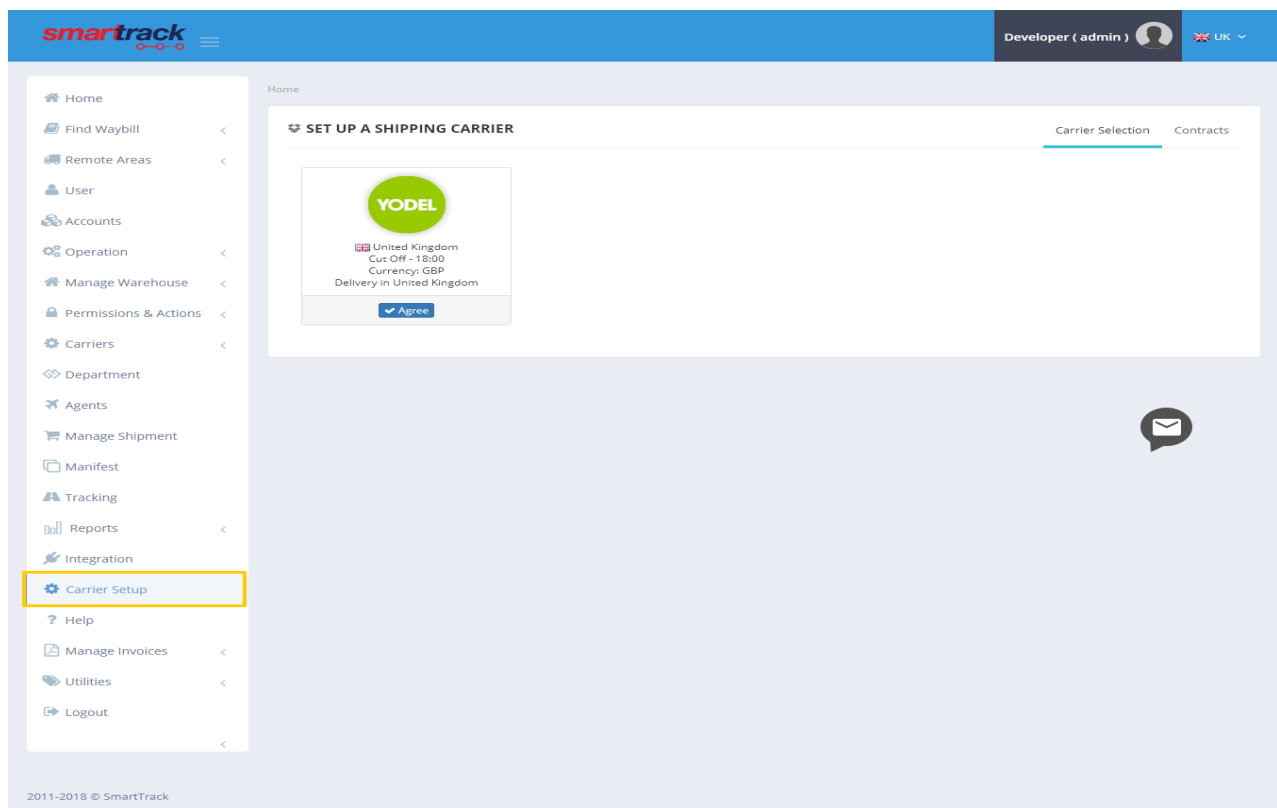

Figure 16-1 Carrier Setup

User need to click on “Agree” button displayed in carrier tile to use its services. After, user clicks on Agree,

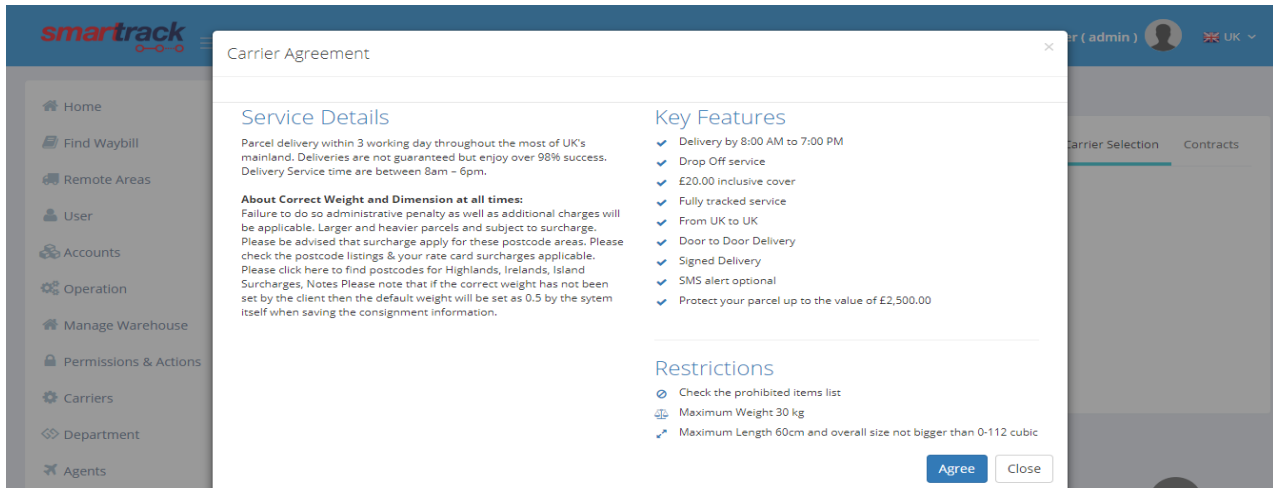

Figure 16-2 Terms & Conditions of carrier

User clicks on Agree to accept terms & conditions of this specific carrier. After clicking on Agree user will be able to use its services and an “Active” label is appeared on that carrier as displayed below.

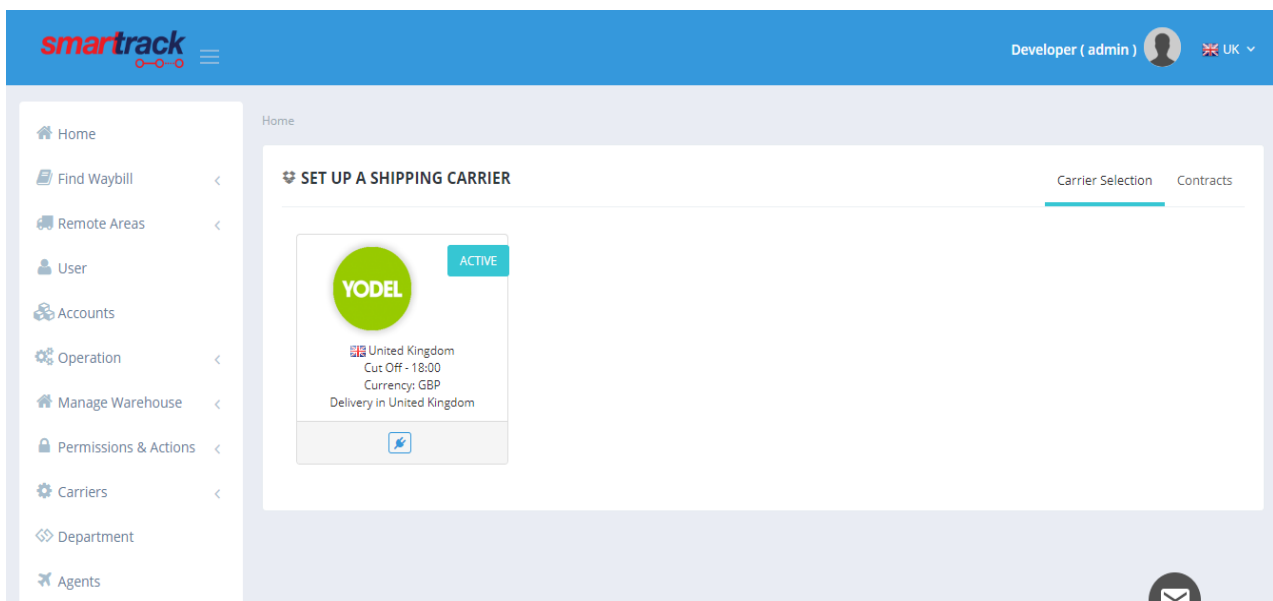

Figure 16-3 Agreed/Active Carriers

16.2. Contracts

User can also add his own “Contracts” in this list by clicking on “Contracts” tab displayed at top of the screen.

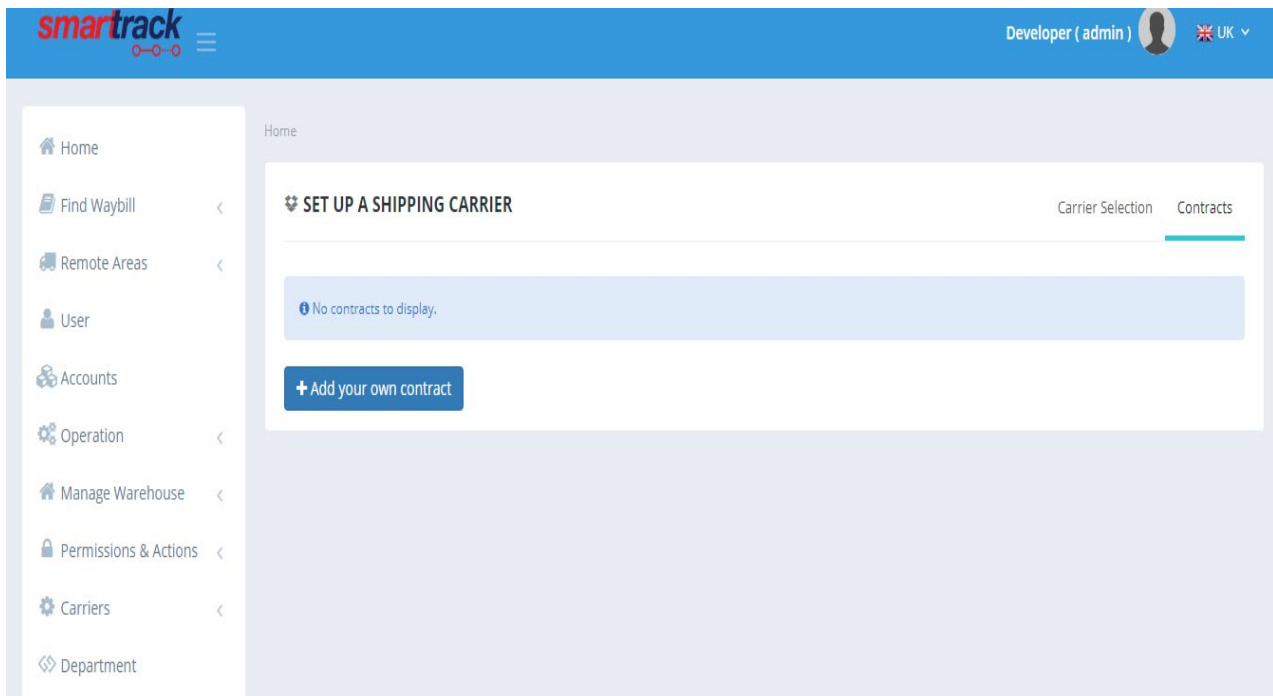

Figure 16-4 Contracts Screen

User will click on “Add your own contract” button and a new screen is displayed as shown below to add a contract.

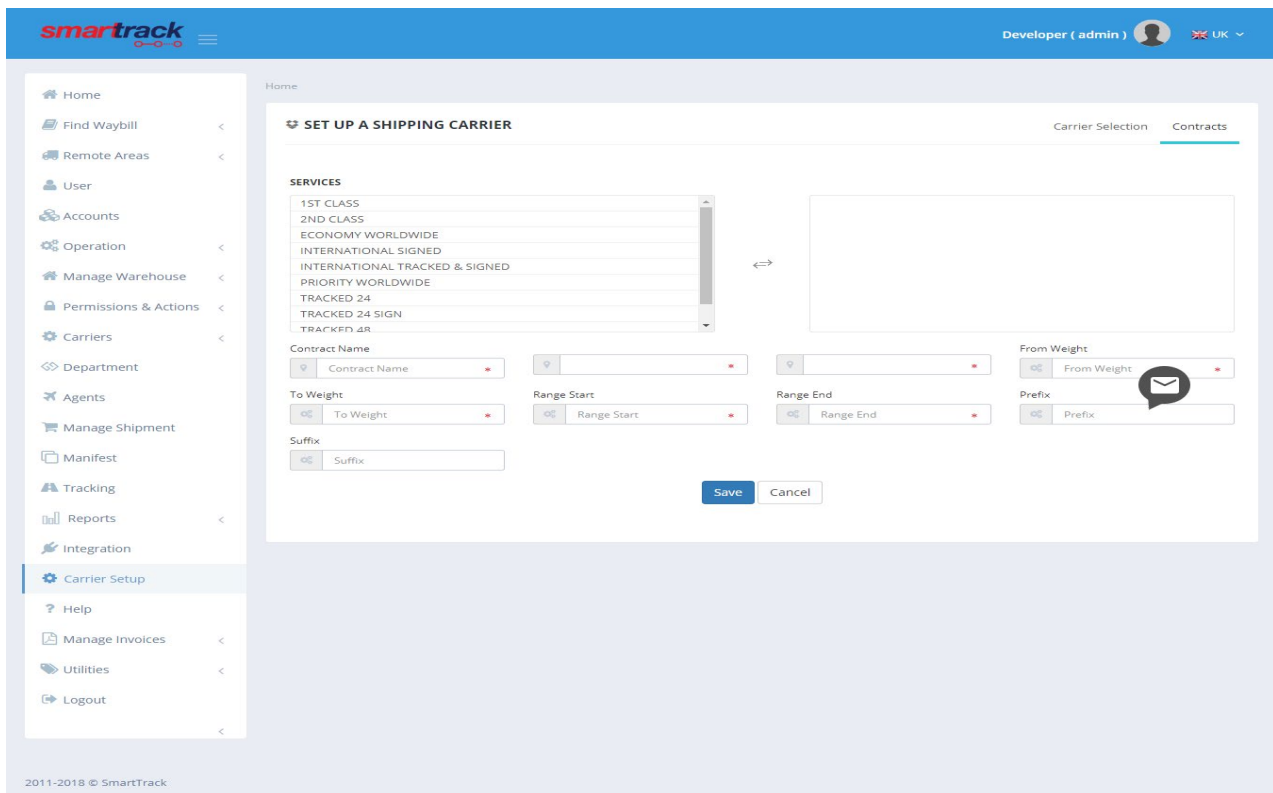

Figure 16-5 Add Own Contract Screen

The added contract's carrier is displayed in Carrier Selection tab.

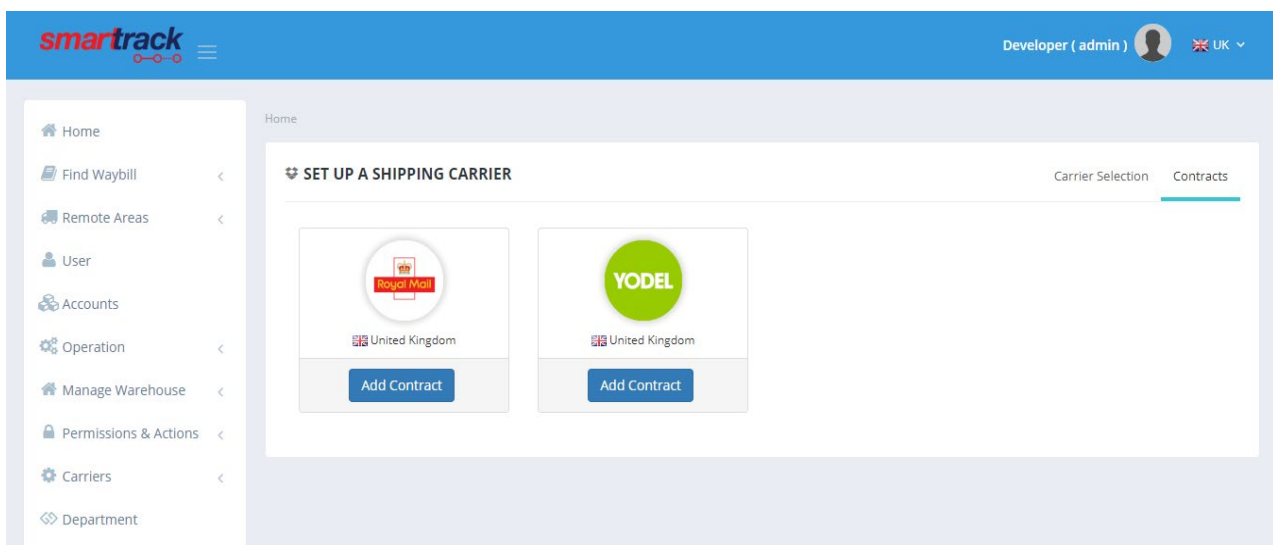

Figure 16-6 Added Contracts in the list

When user has added a new contract, it will be listed in the “Contracts” tab as shown below.

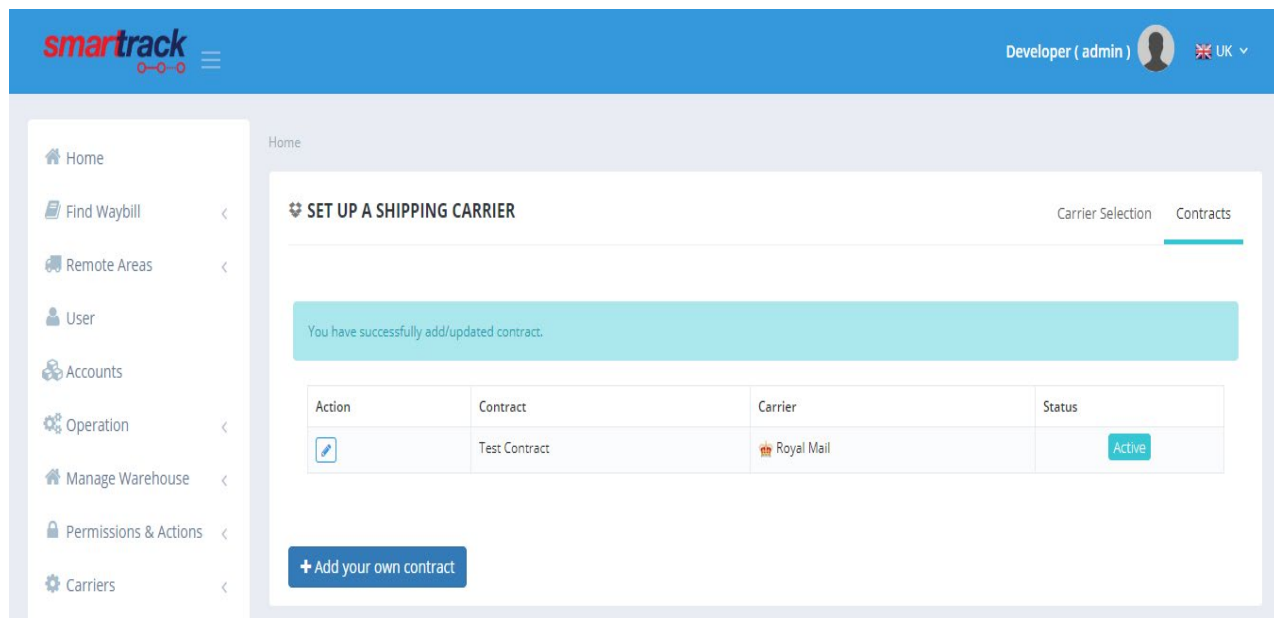

Figure 16-7 Own Contract Added in the Carrier Setup

17. Manage Invoices

System will provide a list of invoices to pay for user that have been generated by Parent account. Invoices are listed along with Invoice Number, Invoice Date, Created Date, Amount, VAT (if applicable), status of invoice and Generated by.

17.1. Invoice List

User can view all auto invoices generated by the system in this screen. There are two types of invoices

- Sale Invoices
- Purchase Invoice

17.1.1. Sale Invoices

All the invoices that user has generated to its child accounts will be listed here along with its Invoice number, invoice date, created date, Account number, Net Amount, Vat, Total Amount, Is paid and Generated by columns.

Figure 17-1 Sales Invoices

There are three type of status in invoices:

- Unpaid**
 Status of invoice will be unpaid until child account has not paid it yet
- Waiting for Approval**
 Status will be changes to “Waiting for Approval”, once user has paid it but parent account has not approved it yet.
- Paid (with Date and Acc No)**
 Status will be paid when parent account has approved the payment.

User can download csv and pdf file from “Tools” drop down. User can send email to user as well.

Page 85 of 128

August 9, 2018

85

User can **cancel** the most recent invoice and re-generate it from find waybill screen if there is any changes required. User can also pay the invoice from “Pay Now” button displayed in “Tools” drop down. A new popup is displayed where user can change the date of paying and can select a method of payment from the following:

- Cash
- Bank Transfer
- Cheque

Once user has clicked on “Pay Now”, amount of invoice will be deducted from his account and a request will be generated to its parent account under “Pending Payments” screen to approve the payment. When parent account will approve its payment its status will be changed to Paid.

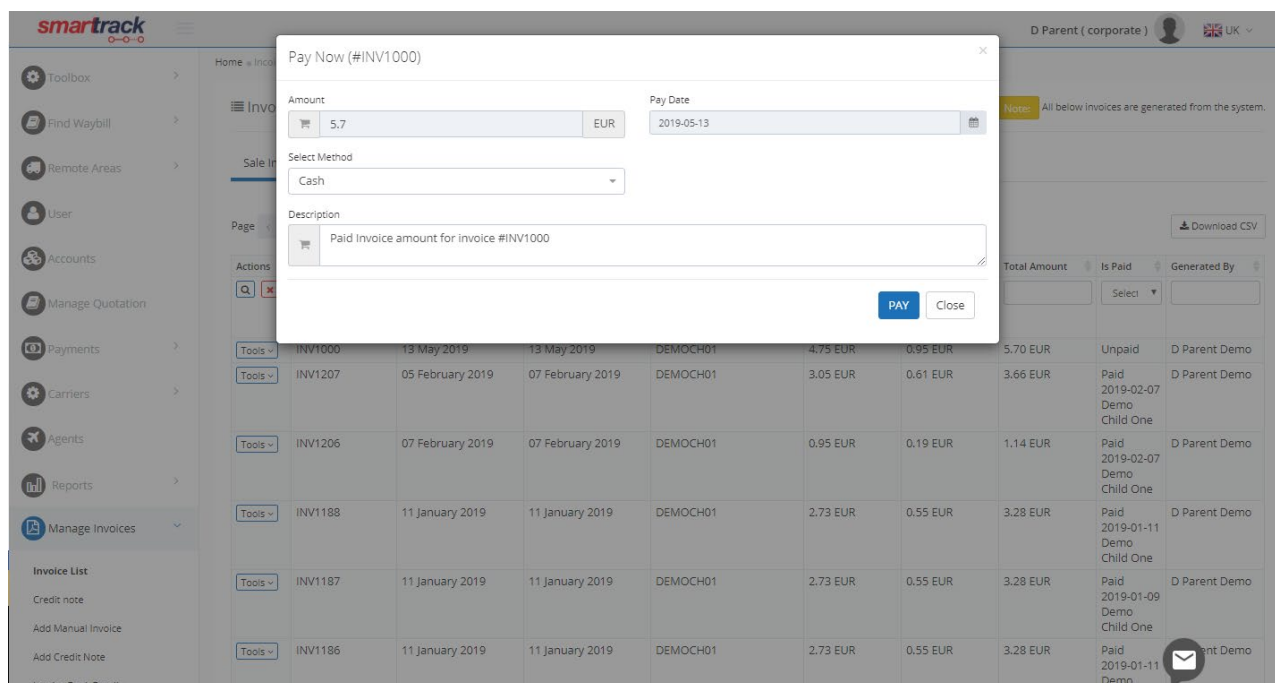

Figure 17-2 Pay Now

User can download CSV from the screen as well.

17.1.2. Purchase Invoices

All the invoices that are generated to this account/user will be listed in Purchase Invoices tab. Columns of the invoices will be same as of sales invoices. User can download csv and pdf file and can pay the invoices generated against his own account.

User can generate a manual invoice by selecting any account he want to generate invoice to; under its account and enter hawb number of any shipment to whom he is going to generate manual invoice. Total amount of that shipment and weight along with other details will be listed in the fields shown. When user clicks on “Save Changes”, a manual invoice is generated and will be listed in Manual Invoices screen.

Figure 17-4 Add Manual Invoice

17.2.2. Sales Manual Invoices

All the invoices that user has generated to its child accounts will be listed here along with its Invoice number, invoice date, created date, Account number, Net Amount, Vat, Total Amount, Is paid and Generated by columns. The only difference between invoices and manual invoices is that Manual invoices are those that are generated by user itself and auto invoices are those that are generated by the system through find waybill screen where tariffs are automatically applied to shipments.

17.3. Credit Notes

System provides a facility to give credit notes to any customer that will be considered in next time payment.

17.3.1. Add Credit Note

User can add a credit note to his child accounts from this screen. User needs to select child account and enter hawb number of shipment. User can then manipulate invoiced amount and chargeable amount. The extra amount will be added in next invoice and user will need to pay a total of invoiced amount minus credit note amount.

18.14. Not Found Report

All the tracking numbers that are not available in the system will be displayed in this screen. This is because if any user wants to scan an invalid tracking number or wrong tracking number, it will not be allowed and will be added in not found record. On end of day, it will be easier to know which tracking numbers were scanned and which were not found in the system. Scanned date along with its master number, bag numbers and dimensions are displayed in the list.

18.17. Pallet Dispatch

Pallet dispatch reports list down all the pallets that are closed and dispatched. By dispatched, we mean that these pallets are on their way to destination and user cannot alter any changes in these pallets. In the list, user can view bag numbers added in that pallet along with its Carrier group and status. User can also view label of this pallet as well.
