

The logo for smartrack, featuring the word "smartrack" in a bold, sans-serif font. The "sma" is red and the "rtrack" is dark blue. Below the text is a red graphic element consisting of three circles connected by a horizontal line, with a dotted line between the second and third circles. The background of the cover features a stylized, abstract pattern of white lines on a dark blue background, resembling a network or a stylized globe.

## 1. LOGIN SCREEN

User can login to the system by using [URL:https://www.smarttrack.co//login.php]. Following screen will be displayed to the user to enter login credentials.

- Username
- Password

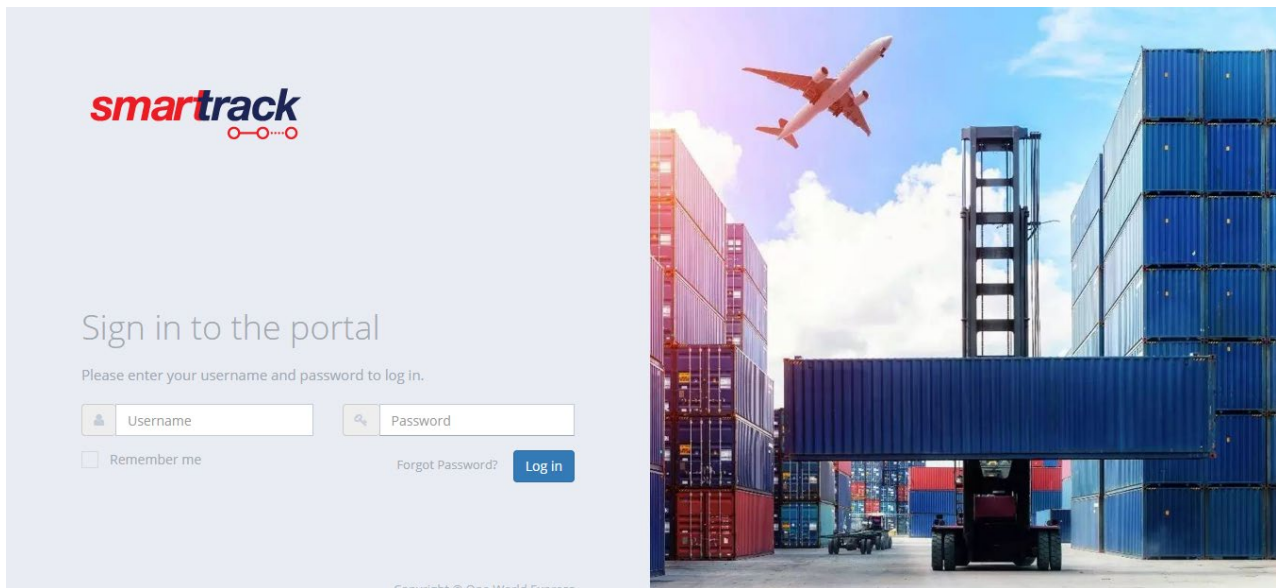

Figure 1-1 user panel Access Information

## 2. DASHBOARD

When user login to the system with valid credentials, system redirects user to Dashboard as shown below. There are 4 tiles displayed at top of the screen that represents

- Total Shipments
- Label Created
- IN transit
- Delivered

Following these tiles are two graphs displayed that are:

- Shipment Statistics Graph
- Top Countries Graph

User can also expand/collapse both graphs to full screen by clicking on the icon displayed at top right of the graph.

Figure 2-1 Dashboard

### 3. PAYMENTS

In Payments section, user will find following two modules:

- History
- Add Balance

#### 3.1 History

On top of the screen, system will display the available balance of the user. System will list all the history of user transactions. Like in the following screen, user will know the Date of transaction, Method by which he is paying, Credit or Debit amount and Running Balance.

Figure 3-1 Payment History

User can download excel file and PDF file as shown below.

| A                        | B              | C                                  | D         | E             | F            |
|--------------------------|----------------|------------------------------------|-----------|---------------|--------------|
| <b>Account Statement</b> |                |                                    |           |               |              |
| Booking Date             | Payment Method | Description                        | Dr Amount | Cr Amount     | Balance      |

Closing Balance :9,999.40 GBP

Figure 3-3 Payment History pdf file

### 3.2 Add Balance

In our system, we have two types of Account; Prepaid and Postpaid.

Only Prepaid account users will be able to add balance.

User can add balance by Paypal, Bank Transfer and Cheque as shown in the figure below.

Figure 3-4 Add Balance for Prepaid Account

Once, user has added balance in his account, a request will be generated by the system to the Parent account to approve the request. After approval, user will be able to use that balance in generating shipments.

Figure 3-5 Request for Payment Approval

#### 4. **MANAGE SHIPMENTS**

Shipments are basically the parcels that client need to deliver from one place to the other. User can add shipments through following two processes:

- Add New Shipment via the webpage
- Upload Shipment Data by downloading CSV template and then importing it  
There are three types of shipments base on services
- Dispatch (Source to destination)
- Collection (Collect parcel from user destination)
- Drop off (User can submit their parcel nearby his own location)

User will navigate to “Manage Shipment” tab from navigation panel and a list of all shipments are displayed here as shown in the figure below

| Created    | HAWB       | Contact | Country                     | Weight   | Status         | Service                | Tracking No                    | Reason | Label |

Figure 4-2 Add New Shipment (Consignment)

#### 4.2. Add New Shipment via CSV import

User can also add a new shipment by importing .csv file through import button displayed next to Add New Shipment button on “Manage Shipment” list. Import screen is displayed in the figure below.

Figure 4-3 Add New Shipment via CSV import

The newly added shipments are displayed in the list with “Ready to Print” status.

Figure 4-4 “Ready to Print” Shipments

### 4.3. Generate custom template

User can generate their own template for import csv.

The screenshot displays the 'CSV Template' dialog box in the SmartTrack application. The dialog has a title bar with a close button. Below the title bar is a 'Template Name' field containing the text 'test'. A list of fields follows, each with a checkbox and a label: 'date added [Shipment create date]', 'shipper country iso [Shipper country iso code (2 character)]', 'receiver country iso [Receiver country iso code (2 character)]', 'service code [This is code of the Service that we are using]', 'order reference [This is order reference number]', 'shipper company [Company Name of the Shipper]', 'shipper contact [Name of the Shipper]', 'shipper email [Email of the Shipper]', 'shipper telephone [Phone Number of the shipper]', 'shipper address line 1 [Address 1 of the shipper]', and 'shipper address line 2 [Address 2 of the shipper]'. The background shows the main application interface with a sidebar menu and a top navigation bar.

Figure 4-5 Custom template

### 4.4. Status of Shipments

Following are the statuses of shipments that depicts in which state user's shipment is:

#### 4.4.1. Invalid

A shipment is invalid if there is any error but its HAWB number is created. It means user can remove that error and shipment will be available to deliver.

Figure 4-8 “Ready to Print” Shipments

#### 4.4.5. Label Created

When user generates label of any shipment, its status changes to “Label Created” and it will be available to further process.

The screenshot shows the 'SHIPMENT LIST' interface with a sidebar on the left containing navigation links: Home, Payments, Manage Shipment, Manifest, Tracking, Reports, Carrier Setup, Manage Invoices, and Logout. The main area has tabs for 'Manifest', 'Label', and 'Merge Existing Label'. Below the tabs, there's a search bar and a table of shipments. The table has columns: Created, HAWB, Contact, Country, Weight, Status, Service, Tracking No, Reason, and Label. The 'Status' column for all visible rows is 'Label Created'. The 'Service' column shows 'International Tracked'. The 'Tracking No' column shows various alphanumeric codes. The 'Reason' column shows 'Parcel List'. The 'Label' column has a link icon. The table is paginated to show 1 of 52 records, with 20 records per page. The total number of records is 1,023.

Figure 4-12 "IN transit" Shipments

#### 4.4.9. Delivered

When the shipment is delivered at the destination, its status is changed to “Delivered”.

The screenshot shows the 'smartrack' web application interface. On the left is a sidebar with navigation links: Home, Payments, Manage Shipment (highlighted), Manifest, Tracking, Reports, Carrier Setup, Manage Invoices, and Logout. The main content area is titled 'SHIPMENT LIST' and includes buttons for 'Add Shipment', 'Import', and 'Manage Address'. Below these are tabs for 'Manifest', 'Label', and 'Merge Existing Label'. A search bar with 'From' and 'To' date pickers is present. The table below lists shipments with columns: Created, HAWB, Contact, Country, Weight, Status, Service, Tracking No, Reason, and Label. All listed shipments have a status of 'Delivered'.

| Created    | HAWB                            | Contact               | Country                      | Weight   | Status    | Service                | Tracking No               | Reason | Label |
|------------|---------------------------------|-----------------------|------------------------------|----------|-----------|------------------------|---------------------------|--------|-------|
| 11.02.2019 | 15499019040213 / test_reference | Test Receiver Contact | Receiver City Malaysia       | 1.000 Kg | Delivered | International Tracked  | LB655300363SE Parcel List |        |       |

Figure 4-13 “Delivered” Shipments

#### 4.4.10. Returned

If the destination is not found or any contact person do NOT receive the parcel, it is returned to the OWE Warehouse and its status is changed to “Returned”.

#### Figure 4-14 “Returned” Shipments

#### 4.4.11. Closed

When the shipment is delivered and all its process is done, its status is changed to “Closed”.

The screenshot shows the SmartTrack application interface. The top navigation bar includes the SmartTrack logo, a user profile for 'Developer (admin)', and a language selector set to 'UK'. A left sidebar contains a menu with options like Home, Find Waybill, Remote Areas, User, Accounts, Operation, Manage Warehouse, Permissions & Actions, Carriers, Department, Agents, Manage Shipment, and Manifest. The main content area is titled 'SHIPMENT LIST' and features buttons for '+ Add Shipment', 'Import', and 'Manage Address'. Below these are filters for 'Manifest', 'Label', and 'Merge Existing Label'. A pagination bar indicates 'Page 1 of 1 | View 20 records | Found total 8 records'. The table below lists shipments with columns for Created, Accounts, HAWB, Contact, Country, Weight, Status, Service, Tracking No, Reason, and Le. Three shipments are shown, all with a 'Closed' status.

| Created    | Accounts   | HAWB                     | Contact       | Country              | Weight   | Status | Service                      | Tracking No        | Reason | Le |
|------------|------------|--------------------------|---------------|----------------------|----------|--------|------------------------------|--------------------|--------|----|
| 31.05.2018 | SMARTTRACK | 503774532227             | Tahir Akbar   | Afd United Kingdom   | 1,000 Kg | Closed | Express World Wide (non Doc) | 7884928435         |        |    |

Figure 4-15 “Closed” Shipments

#### 4.5. Create Labels of Shipments

Users can create labels of shipments by following three ways:

- By clicking on icon displayed against each icon
- By clicking on “Label” button and selecting shipments that user want to create label and clicking on “Print Selected”
- By clicking on “Label” button and clicking on “Print All”.

By clicking “Print All’ button, all the shipments that are in “Ready to Print” status will be converted to “Label Created” status.

Figure 4-16 How to create labels of Shipments

## 4.6. Create Manifest of Shipments

Users can create manifest of shipments by following two ways:

- By clicking on “Manifest” button and selecting shipments that user want to manifest and clicking on “Manifest Selected”
- By clicking on “Manifest” button and clicking on “Manifest All”

By clicking “Print All” button, all the shipments that are in “Ready to Print” status will be converted to “Label Created” status.

Figure 4-17 How to create Manifest of Shipments

After creating manifest, a list of all manifest reports are displayed in the list as shown in below figure.

Figure 4-18 Manifest Report

#### 4.7. How to Export, Delete, Hold, UN hold and Restore Shipments

User is able to Export, Delete, Hold, UN hold and Restore any shipment before its manifest is created. There are checkboxes present against each shipment to select and an action drop down to perform different actions like Export, Delete, Hold etc.

Figure 4-19 How to Export, Delete, Hold, UN hold, and Restore Shipments

#### 4.8. How to Track any Shipment?

User is able to track its shipments as well. There are two ways to track a shipment.

- By clicking on the “Tracking No” displayed against each shipment
- By going to Tracking page and entering “Tracking No” of any shipment there.

Below figure displays single tracking of a shipment.

Figure 4-20 How to track single shipment

Below figure displays a multi-tracking shipment.

Figure 4-21 How to track multiple shipments

## 5. CARRIER SETUP

Carrier setup is the screen where user can see the carriers that are associated to his account. User need to accept terms and conditions to use that carrier. There are two tabs displayed in Carrier Setup screen as follows:

- Carrier Selection

- Contracts

## 5.1. Carrier Selection

Below is shown the screen of Carrier setup. This is “Carrier Selection” tab.

Figure 5-1 Carrier Setup

User need to click on “Agree” button displayed in carrier tile to use its services. After, user clicks on Agree,

Figure 5-2 Terms & Conditions of carrier

User clicks on Agree to accept terms & conditions of this specific carrier. After clicking on Agree user will be able to use its services and an “Active” label is appeared on that carrier as displayed below.

Figure 5-3 Agreed/Active Carriers

## 5.2. Contracts

User can also add his own “Contracts” in this list by clicking on “Contracts” tab displayed at top of the screen.

Figure 5-4 Contracts Screen

User will click on “Add your own contract” button and a new screen is displayed as shown below to add a contract.

Figure 5-5 Add Own Contract Screen

The added contract’s carrier is displayed in Carrier Selection tab.

Figure 5-6 Added Contracts in the list

When user has added a new contract, it will be listed in the “Contracts” tab as shown below.

Figure 5-7 Own Contract Added in the Carrier Setup

## 6. Manage Invoices

System will provide a list of invoices to pay for user that have been generated by Parent account. Invoices are listed along with Invoice Number, Invoice Date, Created Date, Amount, VAT (if applicable), status of invoice and Generated by.

Figure 6-1 Invoices list

User can download all invoices list as well.

|   | A    | B           | C                   | D             | E                | F       | G               | H          | I        | J          |
