1. LOGIN SCREEN

Finance's user can login to the system by using [URL:<https://www.smarttrack.co//login.php>]. Following screen will be displayed to the user to enter login credentials.

- Username
- Password

Figure 1-1 user panel Access Information

2. DASHBOARD

When user login to the system with valid credentials, system redirects user to Finance Dashboard as shown below. There are multiple tiles displayed at top of the screen that represents

- Total Shipments
- Total Shipments Amount
- Total Billable Shipments
- Total Billed Shipments
- Total Unpaid Shipments
- Total Paid Shipments
- Available Balance
- Total Billable Amount
- Total Billed Amount

- Total Paid Amount

Following these tiles is a graph displayed that depicts top 20 billed amount countries.

User can manipulate with following actions on the list of shipments displayed

- Operation Manifest
- Billing Hold
- Manual Bulk Price All
- Assign price with CSV upload
- Bulk Vol Weight
- Manual POD update
- Charge Shipment Status

User can also view tracking of any shipment by clicking on tracking number of shipment displayed.

The screenshot displays the SmartTrack Parcel Tracking interface. The top navigation bar includes the SmartTrack logo, a user profile icon, and a language selector set to UK. The left sidebar contains a menu with options: Toolbox, Find Waybill, Remote Areas, User, Accounts, Manage Quotation, Payments, Carriers, Agents, Reports, Manage Invoices, and Logout. The main content area is titled 'PARCEL TRACKING' and features a 'Data Received' status box. Below this, the 'SHIPMENT INFORMATION' section displays the tracking number 'JD0002210161110044', the origin country 'United Kingdom', and the destination country 'United Kingdom'. A 'TRACK' button is visible next to the tracking number. The tracking timeline shows three stages: 'PICKED UP', 'ON THE WAY' (currently active), and 'DELIVERED'. The 'TRACKING EVENTS' table at the bottom provides a detailed log of the shipment's progress.

TRACKING EVENTS		
Date	Description	Status
Tuesday, December 04, 2018		
01:38 PM	Birmingham3 - GBR	Data Received

Figure 3-3 Tracking of any shipment

User can view details of any shipment by clicking on hawb number or by double clicking on the record.

The screenshot shows the 'SHIPMENT DETAIL' screen in the SmartTrack application. The interface includes a sidebar with navigation options like Toolbox, Find Waybill, Remote Areas, User, Accounts, Manage Quotation, Payments, Carriers, Agents, Reports, Manage Invoices, and Logout. The main content area has tabs for 'Shipment Detail', 'Agent Detail', and 'Parcel Detail'. The 'SHIPMENT DETAIL' tab is active, displaying sections for 'Details', 'Booking Details', and 'Shipment Details'.

4. ACCOUNTS

There are two types of Accounts in our system:

- Prepaid Account
- Postpaid Account

4.1 Prepaid Account

Prepaid accounts are the accounts that should have balance before generating labels of shipments. User can add prepaid balance by "Add Balance" screen in Payment module. Parent Account can add balance to its child account but if child account adds balance by itself, it will be moved to Parent account to verify if

the balance is added successfully or not. So when parent account will approve balance, child account will be able to generate labels.

User can view prepaid account by Hierarchical view of accounts as well.

Figure 4-1 Prepaid Account

4.2 **Postpaid Account**

Postpaid accounts are the accounts that will continue generating labels of shipments and will pay all invoices at the end of month. User can add limit of balance in Postpaid Account from Billing Details. After adding limit, postpaid user will be able to utilize the limit before paying but when the limit is used. He would need to pay all previous invoices first to use the limit again.

User can view postpaid account by Hierarchical view of accounts as well.

Figure 4-2 Postpaid Account

5. MANAGE QUOTATIONS

5.1 Add Quotation

For instance, we have a new user that is not using our system at the moment. But they want to send a parcel and wants to get quotation from our system. We will simply takes its email address and use an account that has the same source and destination as client's requirement. We will populate that account and when we add weight, all available services within weight range along with its pricing will be populated. If user wants to use same pricing then he will select "Member Price" from Price Type and if he wants to manipulate price then he will select "Manual Price" in Price Type. Upon "Save Quotation", a quotation will be saved in quotations list.

The image shows the 'Quotation Form' in the SmartTrack application. The form is divided into several sections for data entry:

- Header:** Includes the SmartTrack logo, user 'D Parent (corporate)', and a UK flag.
- Form Fields:**
 - Email: test@demo.com
 - Postcode: UB3 5DZ
 - City: Test City
 - Price Type: Agent Price
 - Select Account: DEMOCH01
 - From Country: United Kingdom
 - To Country: Germany
 - Weight: 2 KGS
 - PIECES: Length, Width, Height, Vol Weight
- RESULT TARIFF Table:**

Carriers	Services	Basic Charges	Vat Charges	Extra Charges	Sub Total	Discount	Total	Action
Royal Mail	PRIORITY WORLDWIDE	0.00	0.02	0.00	0.10	0.00	0.12	Select
DPD NL	CLASSIC (NL)	0.00	0.02	0.00	0.10	0.00	0.12	Select
Aramex	ARAMEX PRIORITY PARCEL EXPRESS	0.00	0.02	0.00	0.10	0.00	0.12	Select
Sweden Post	SWEDEN POST REGISTERED	0.00	0.02	0.00	0.10	0.00	0.12	Select
Deutsche Post	DEUTSCHE POST REGISTERED	0.00	0.02	0.00	0.10	0.00	0.12	Select
MAIL OPTION (PROFM)	INTERNATIONAL TRACKED	0.00	0.02	0.00	0.10	0.00	0.12	Select
PILOT	EUROPEAN TRACKED PARCEL	0.00	0.02	0.00	0.10	0.00	0.12	Select
- Footer:** Includes a 'Save Quotation' button and a chat icon.

Figure 5-1 Add Quotation

5.2 Quotations List

User can view all the quotations from quotation list. User can also download pdf file of this list and can send email to the new client using “Send Email” feature added in “Tools” drop down.

The image shows the 'Quotation List' in the SmartTrack application. It includes a table of quotations and a sidebar with navigation options.

Quotation List Table:

Actions	Account	Carrier	Service	Weight	Pieces	From Country	To Country	Quotation Date

12-03-2019		Invoiced amount for invoice# INV1023	86.25 GBP	0.00 GBP	86.25 GBP	110,470.34 GBP

Figure 6-1 Payment History

6.2 Add Balance

User can add balance of only prepaid accounts from this screen. User can pay by different methods as follows:

- Cash
- Paypal
- Bank Transfer
- By Cheque
- Bonus

When recharge method is Paypal, then no request will be initiated to parent account for approval of amount. But for all other methods, parent account will have to approve first then user can use its balance.

The screenshot shows the 'Add Balance' form in the SmartTrack application. The left sidebar contains a menu with options: Toolbox, Find Waybill, Remote Areas, User, Accounts, Manage Quotation, Payments (selected), History, Add Balance, Pending Payments, Carriers, Agents, Reports, Manage Invoices, and Logout. The main content area is titled 'Home » Add balance' and 'Add Balance'. It includes a 'BALANCE INFORMATION' section with three input fields: 'User Account' (dropdown menu showing 'Nothing selected'), 'Amount' (text input with placeholder 'Enter Amount'), and 'Currency' (dropdown menu showing 'Select Currency'). Below these is a 'Pay By' dropdown menu showing 'Cash'. At the bottom right of the form are 'Add' and 'Cancel' buttons. A chat icon is visible in the bottom right corner of the main content area.

Figure 6-2 Add Balance

6.3 Pending Payment

All the pending payments of child accounts that need to be approved will be listed here. User can approve or cancel it and the balance will reflect in child account accordingly.

The screenshot shows the 'Pending Payment' section in the SmartTrack application. The left sidebar is the same as in Figure 6-2, with 'Payments' selected. The main content area is titled 'Home » Pending payment' and 'Pending Payment'. It displays a message 'No records found to show' above a table. The table has columns: Date, Account, Method, Description, Amount, and Action. The 'Date' column has 'From' and 'To' date pickers. The 'Account' column has a dropdown menu showing 'Please select'. The 'Method' column has a dropdown menu showing 'Cash'. The 'Description' and 'Amount' columns are empty text input fields. The 'Action' column contains search and delete icons. Below the table, there is another message 'No data available in table' and another 'No records found to show' message. A chat icon is visible in the bottom right corner of the main content area.

Figure 6-3 Pending Payment

7. MANAGE INVOICES

7.1 Invoice List

User can view all auto invoices generated by the system in this screen. There are two types of invoices

- Sale Invoices
- Purchase Invoice

7.1.1 Sale Invoices

All the invoices that user has generated to its child accounts will be listed here along with its Invoice number, invoice date, created date, Account number, Net Amount, Vat, Total Amount, Is paid and Generated by columns.

Figure 7-1 Sales Invoices

There are three type of status in invoices:

- Unpaid
Status of invoice will be unpaid until child account has not paid it yet
- Waiting for Approval
Status will be changes to “Waiting for Approval”, once user has paid it but parent account has not approved it yet.
- Paid (with Date and Acc No)
Status will be paid when parent account has approved the payment.

User can download csv and pdf file from “Tools” drop down. User can send email to user as well.

User can **cancel** the most recent invoice and re-generate it from find waybill screen if there is any changes required. User can also pay the invoice from “Pay Now” button displayed in “Tools” drop down. A new popup is displayed where user can change the date of paying and can select a method of payment from the following:

- Cash
- Bank Transfer
- Cheque

Once user has clicked on “Pay Now”, amount of invoice will be deducted from his account and a request will be generated to its parent account under “Pending Payments” screen to approve the payment. When parent account will approve its payment its status will be changed to Paid.

The screenshot shows the SmartTrack software interface. A modal window titled "Pay Now (#INV1000)" is open, allowing a user to pay an invoice. The modal contains the following fields:

- Amount:** 5.7 EUR
- Pay Date:** 2019-05-13
- Select Method:** Cash (dropdown menu)
- Description:** Paid Invoice amount for invoice #INV1000
- Buttons:** PAY (blue), Close (white)

The background shows a list of invoices with the following columns: Invoice No, Date, Amount, Status, and Generated By. The list includes several invoices, with the most recent one being INV1000, which is currently Unpaid.

Invoice No	Date	Amount	Status	Generated By
INV1000	13 May 2019	5.70 EUR	Unpaid	D Parent Demo
INV1207	05 February 2019	3.66 EUR	Paid 2019-02-07 Demo Child One	D Parent Demo
INV1206	07 February 2019	1.14 EUR	Paid 2019-02-07 Demo Child One	D Parent Demo
INV1188	11 January 2019	3.28 EUR	Paid 2019-01-11 Demo Child One	D Parent Demo
INV1187	11 January 2019	3.28 EUR	Paid 2019-01-09 Demo Child One	D Parent Demo
INV1186	11 January 2019	3.28 EUR	Paid 2019-01-11 Demo	D Parent Demo

Figure 7-2 Pay Now

User can download CSV from the screen as well.

7.1.2 Purchase Invoices

All the invoices that are generated to this account/user will be listed in Purchase Invoices tab. Columns of the invoices will be same as of sales invoices. User can download csv and pdf file and can pay the invoices generated against his own account.

User can generate a manual invoice by selecting any account he want to generate invoice to; under its account and enter hawb number of any shipment to whom he is going to generate manual invoice. Total amount of that shipment and weight along with other details will be listed in the fields shown. When user clicks on “Save Changes”, a manual invoice is generated and will be listed in Manual Invoices screen.

7.2.2 Sales Manual Invoices

All the invoices that user has generated to its child accounts will be listed here along with its Invoice number, invoice date, created date, Account number, Net Amount, Vat, Total Amount, Is paid and Generated by columns. The only difference between invoices and manual invoices is that Manual invoices are those that are generated by user itself and auto invoices are those that are generated by the system through find waybill screen where tariffs are automatically applied to shipments.

8.5 Customer Labels

User can download a report of customer labels depending upon the date range and no of users of its own account and child accounts has created.

The screenshot shows the SmartTrack O-G-C web application interface. On the left is a sidebar with navigation icons and labels: Toolbox, Find Waybill, Remote Areas, User, Accounts, Manage Quotation, Payments, Carriers, Agents, and Reports. The 'Reports' section is expanded, showing sub-options: Label Generation, Tracking Status, Tracking Country Service, Accounts Summary, Customer labels, and Carrier Service Performance. The main content area is titled 'Home' and 'Customer Label Generation Report'. It features a 'REPORT FILTERS' section with three dropdown menus: 'Select Account' (showing 'Please Select Account'), 'Date Type' (showing 'Date Created'), and 'Date Ranges' (showing empty fields for 'to'). A blue button labeled 'Download Excel File' is positioned to the right of the filters. The top right of the page shows the user 'D Parent (corporate)' and a language selector set to 'UK'.
