1. INTRODUCTION

SMARTTRACK

Users can create shipments using the available services they want using Smart track System.

When creating the shipments using the available service user should bear the cost of labels. The cost of shipments varies according to service. To find the tariff for the services you need to contact our Accounts Team.

The system's concept is to provide all services available to the client without the need of separate logins and separate services and bring all the functionality of these systems into one system.

To login is very simple navigate to the Login Page Here it will look similar to the screen shot below. Here you will enter your username and login credentials to access the System.

2. DASHBOARD – Once you login you will be presented with Dashboard as below:

On the top section you will be presented with information number of total shipments you have created, shipments in transit, delivered.

Further, below the dashboard gives the graph reports of the shipments weight statistic. The report gives the shipments daily status, graph representation of labels created for top countries.

3. HOW DO I CREATE SHIPMENT/ LABEL?

Shipments can be created from the option Manage Shipment

1. Add New Shipment via the webpage
2. Upload Shipment Data by downloading CSV template and then importing it

3.1 Add New Shipment – Manage Shipment → Add New Shipment

1. Go to Manage Shipment → Add New Shipment.
2. We need to fill the Consignment Details as below and Click Save button.

Home » Shipment » Add

ADD NEW CONSIGNMENT [List](#) [Import](#) [Manage Address](#)

Fields with an asterisk (*) are mandatory

SERVICE DETAILS

Country: * Order Reference: Sender Name: [Address List](#)

Service: * More Info Tracking Number: Reference:

RECEIVER DETAILS

Contact: * Company: Address Line 1: * Address Line 2:

Address Line 3: City: * State: Postcode: * [Find](#)

Email: Telephone: ☐ Remember this Contact

CONSIGNMENT INFORMATION

No. Of Items: Items Weight: * Items Value: Items Currency:

Item Type: Notes: Description: * [Save](#)

3. Then we can see our shipment in shipment list and we need to click on generate label.

Page < 1 > of 1 | View 20 records | Found total 1 records [ACTION](#)

	Created	HAWB	Contact	Country	Weight	Status	Service	Tracking No	Reason	Label
	From			Select Country		Ready ...	Service			
	To									
☐	16.02.2018	172092563214	Joe Blogs	London Germany	1.000 Kg	Ready to print	DEUTSCHE POST REGISTERED			Generate Label

Page < 1 > of 1 | View 20 records | Found total 1 records

4. Then the page will appear as below where we just need to click view label.

☐	16.02.2018	172092563214	Joe Blogs	London Germany	1.000 Kg	label created	DEUTSCHE POST REGISTERED	RS042600272DE	View Label
--------------------------	------------	--------------	-----------	----------------	----------	---------------	--------------------------	---------------	----------------------------

- Our label will pop-up like below. Then we just need to print the label and stick in our parcel.

3.2 Upload Shipment Data (CSV)

If we have to create shipments in bulk then we can create the shipments by uploading the csv file instead of adding the shipments one by one.

Shipments can be uploaded by csv from the option Manage Shipment → Import Shipment Data (csv).

3.2.1 Where To Get CSV Template File?

We can download CSV format from system.

- Go to Manage Shipment → Import
- On Import page we can get the csv format file by clicking on template.

3.2.2. How CSV File Should Be Before I Upload In System?

1. The CSV file should look like below.

Column A enter User name.

Column D enter service_code.

Column V routing/non routing we need to enter 0.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	
1	Account	HAWB	Service	service_code	reference	date	subr	Company	Contact	Address L1	Address L2	Address L3	City	Country	PostCode	Telephone	Number	o	Weight	Descriptive Value	Currency	notes	routing/n	Full Pallet	Half Pallet
2	STAND			1H	testingby	#####		FashionRi	FashionRi	Oneworld	Hayes	Middx	London	GB	UB33NB	7.94E+09	1	2	FashionRi	11	GBP	Leave on c	0		
3	STAND			3H	testingby	#####		Telephon	Mr Ray	Flat 901	London	34 Lomb	London	GB	SW11 3RY	7.94E+09	1	2	test	10	GBP	Handle wi	0		
4	STAND			1HS	testingby	#####		Still Scott	Cameron	11 Tennis	London	Surrey	London	GB	SE25 5RY	7.94E+09	1	2	test	5	GBP	Handle wi	0		
5	STAND			3HS	testingby	#####		Bottle	Sam Smith	5 Reart Ro	London	Middlese	London	GB	UB32AU	7.94E+09	1	2	test	3	GBP	Handle wi	0		
6	STAND			3HPA	testingby	#####		Paper Me	Roy	45 Rotten	London	Middlese	London	GB	SW11 3RY	7.94E+09	1	2	test	4	GBP	Handle wi	0		
7	STAND			3HPA	testingby	#####		One Worl	Meera	89 Bottel	Hayes	Middlese	London	GB	UB33NB	7.94E+09	1	2	test	4	GBP	Leave on c	0		

3.2.3. Where to Find Account Code?

1. Move the mouse on top of the page select My Profile.

2. In profile information we can find Account

3.2.4. What Is Service Code and where do I find Service Code?

Service code is the code name we use for the service you are using to create label. Example: If you are using Royal Mail Tracked 48 service to create label then service code for this service will be TP2.

Service code for all the services are listed in the index of this guide at page 19.

3.2.5. Where do I upload CSV?

1. Manage Shipment → Import → Standard .csv Import → Choose File → Import

2. Click on Standard CSV import as shown above.
3. Browse the PC files, locate the CSV shipments file and click import.

4. When the CSV is imported then the message is shown as below and click on Click here to view shipment.

> **IMPORT SHIPMENT**

Select file to import temp_import (2).csv

Uploading CSV File....
 Start Importing data
 Importing records from 1 to 10...Done[7] Fail[0]
 All Records imported successfully.

[Click Here to View Shipment](#)

After clicking the button above you will see a list of all shipments you have imported via .csv file.
 The list will show which shipments have been successfully imported ("Ready To Print") or which can't be processed because of wrong or invalid data in the
 Please use the "Filter" button on top of the page to see which shipments are "invalid". You can use the "Export" button to export a .csv file containing these

Note:
 Please be advised that surcharges apply for remote postcode areas. Please check the postcode listings and your rate card for applicable surcharges. Maxir
 on the longest side for the CSV upload service. However, each service may have different maximum and minimum sizing requirements and parcels may be
 any of the services limitations. Please check your rate card or with your account manager or customer service for clarification on minimum and maximum

5. Then we can see list of shipments created.
